GIANT BLAST NUDGES GRAPH

Product of 1,375 tons of high explosive is measured in a few inches on the graph shown above. Fingers show seismographic recording of Ripple Rock blast as shock waves reached Horsehoe Bay near Vancouver, 109 miles

away. Graph on right shows shock waves caused by 900 pounds of explosive detonated earlier in a depth charge blast 75 miles away, off Constance Bank near Victoria. For story behind graphs, see Page 13.

U.S. Will Remain Our Best Customer

GORDON REPORT HIGHLIGHTS

OTTAWA (CP)—Highlights of forecasts and recommendations made by the Gordon royal commission in its final report on Canada's prospects:

Federal tax cuts, higher spending, should be used in times of serious unemployment.

Greatest share of Canada's trade increase likely will go towards the United States.

Prospects of large, new free-trade moves are unlikely; Canada should hold the line on present tariff level.

Canadian vulnerability to U.S. economic recessions likely will decrease, though U.S. unemployment and recession will be felt for many years.

Canadian agriculture should avoid measures that would stimulate over-production and reduce average farm incomes.

Competing transport services should be helped to pay their own way, avoiding waste and duplication.

Government "might well" open the Montreal market to Prairie oil if wider access to the U.S. market is not achieved.

A new national energy authority should be responsible for development, export, import and consumption of all forms of energy.

Atlantic region residents should be helped to move elsewhere if economic development there is inadequate.

"Unreasonable" demands for domestic processing of mineral resources could lose foreign markets.

Defence spending likely will remain high, but will become a smaller part of total national expenditure.

Anti-combines law should be modified to allow more large-scale, lower-cost production.

Municipalities could obtain added revenue through a charge for sewer service and a municipal vehicle tax on an assured proportion of provincial motor vehicle revenue.

Theatres Bombed

JAKARTA, Indonesia (CP)—A hand grenade exploded in front of two adjacent theatres in the central Java town of Cheribon Monday night, wounding 30 persons.

Ike Challenges Nikita To Accept A-Arms Ban

Red Test Halt Not Sincere

WASHINGTON (AP)—President Eisenhower today challenged Nikita Khrushchev to go beyond a mere end to nuclear testing and accept dependable supervised disarmament "if the Soviet Union is as peace-loving as it professes."

That was the essence of Eisenhower's reply to an April 4 letter from the new Soviet premier in which Khrushchev:

1. Called on the United States to follow the example set by Moscow March 31 when Foreign Minister Andrei Gromyko announced the Russians were suspending tests; and

2. Emphasized the point, made by Gromyko, that if the West does not take that course the Russians will consider it necessary in the interest of security to resume their own tests.

Eisenhower made it clear that planned U.S. nuclear trials will go ahead in the Pacific this spring and summer, and questioned whether it was even Khrushchev's real aim to get testing stopped.

"The timing, wording and manner of the Soviet declaration cannot but raise questions as to its real significance," Eisenhower said in his letter delivered in Moscow this morning

3. Agreeing as an alternative to Eisenhower's "open skies" aerial inspection and space-for-space proposals.

4. Agreeing to "begin the preliminaries necessary to larger things" in the disarmament field by starting immediately a joint study of technical measures for setting up international atomic controls.

Russ Tests End 'Peculiar'

Eisenhower told the Communist leader it seems peculiar that Russia, having just concluded a series of tests of unprecedented intensity, "should now, in bold headlines, say that it will not test again, but add in small type, that it may test again if the United States carries out its long-announced and now-imminent series of tests."

5. Accepts Position In Private Industry

BUKITTINGGI, Sumatra (AP)—Bunuanudin Harahap, rebel defence minister, narrowly escaped tonight when assassins tried to kill him with hand grenades.

Raw Material Exchange for Manufactured Goods Foreseen in Gordon Report

OTTAWA (CP) — The Gordon Economic Commission sees few prospects for putting world trade on a freer basis or finding wider foreign markets for Canadian manufactured products.

It expects the world wheat price, in relation to other commodity prices, to be depressed. And it foresees "little reason for expecting rising price trends for most raw materials."

But it finds "grounds for considerable optimism" about Canada's future chances of exchanging its raw materials for manufactured goods on world markets.

Its recommendation on tariff policy—similar to that in its preliminary report issued 15 months ago—is that Canada

should "hold the tariff line on the average at about its present level."

An impetus given by the United States toward freer trade policies in the world now is "virtually exhausted," it said.

It urged the straightening out of "anomalies" in Canada's tariff structure, and advised protection for established industries against imports at "dumped prices" below fair market value.

But it said Canada's goal should continue to be establishment of freer world trade. Canada would suffer as much as any country from a world-wide round of "beggar-your-neighbor" competitive tariff increases.

The commission's prediction on wheat prices is based on

what it describes as "the world-wide pressure" to protect agriculture industries in various countries and build up national food programs, especially in grains.

These programs "will operate to limit the quantity of cereals entering world trade over the next 25 years and will tend to depress the international price of wheat relative to that of other commodities."

It cautioned that Soviet trade policy "may often be deliberately disruptive and piratical" for strategic reasons.

Canadian producers, for example, may have to face the dumping in third markets of such commodities produced within the Soviet bloc as lumber, asbestos, coarse grains and salmon."

The commission virtually ruled out Canada-U.S. "reciprocity" to eliminate trade restrictions between the two countries.

There was no reason to believe U.S. authorities would want it. And in Canada it "would entail an upheaval in the lives of a great many people" working in industries unable to survive American competition.

Tax Cut Best For Jobless Probe Rules

Gordon Report Analysis Says Program Of Public Works Would Take Too Long

OTTAWA (CP) — The federal government should reduce taxes and increase federal expenditures during times of serious unemployment, says the Gordon Royal Commission on Canada's economic prospects.

RUTHLESSNESS NEEDED TO PUT CITY IN ARCTIC

OTTAWA (CP) — It would take the "ruthlessness of a Peter the Great to plant any large centres of population" in the Canadian Arctic, says the Gordon royal commission on Canada's economic prospects.

The northern wilderness will continue to dwarf whatever encroachments are made on it, although there will be important economic developments there in the future, the commission adds in its final report made public today.

Report Urges Gov't Agency On Energy

OTTAWA (CP) — Government action to open the蒙特利尔 market for western Canada oil may come about if Canadian crude is prevented from reaching its natural American market, the Gordon economic commission says.

That possibility, outlined in the royal commission's final report, is one of several major topics not contained in the commission's preliminary report of January, 1957.

The report recommends the establishment of a national energy authority responsible for development, export, import and consumption of all forms of energy in Canada.

It calls for generous tax concessions to encourage investment by Canadians in this country's oil and gas industry, major efforts to find new markets for gas and oil and limited export to the U.S. of hydroelectric power.

The report says the Canadian oil industry is suffering from "claustrophobia" which can be solved only by new markets. Main reason for this situation was that U.S. interests which control or own most of the industry were reluctant to increase exports to the U.S. because this would disturb the high level of prices now insulating American producers.

More Processing Of Minerals Held 'Unreasonable'

OTTAWA (CP) — The Gordon royal commission on Canada's economic prospects has cautioned against "unreasonable" demands for increased processing in Canada of this country's mineral resources.

"If we should be unreasonable in our demands that further processing operations be undertaken in Canada, we might find our foreign customers would look elsewhere for their supplies," the commission said.

WALTER GORDON
completes report

\$100 BILLION NEW HOUSING FORECAST

OTTAWA (CP) — About \$100,000,000 may be spent on new housing and kindred projects during the next 25 years in Canada, the Gordon economic commission forecast today in its final report.

TAKES LONG TIME

The commission, headed by Toronto accountant Walter Gordon, said the trouble with public works is that they take a long time to launch. Months and even years of planning and coordination were required.

More work had to be done in the study of the business cycle and ways in which it could be evened out. A body of experts should be set up—along the lines of President Eisenhower's council of economic advisers—to inform the government of changes in economic policy that might be helpful "to ensure a high level of employment without inflation."

COULD CAUSE INFLATION

Inflation could be caused by demands of workers for pay boosts, the commission said.

"One thing is certain. We shall not find the answer to the problem of inflation by blaming one or other of the many groups and classes that together comprise what we refer to as the free market economy."

"This is one problem where the solution, if there is one, must lie within the area of government policy and action, including leadership and continuing education in these matters."

The commission proposes "that longer a tax, but an economic municipal real property tax price for a particular service be given rather less work to do." There seems no real reason why and that it be made payable in sewer service should not be monthly instalments instead of similarly charged for, with the amount of service provided being determined by the amount of water consumption."

The commission notes that many Canadian municipalities receive each year 50 per cent of the Alberta government's revenue from gasoline tax in the previous year.

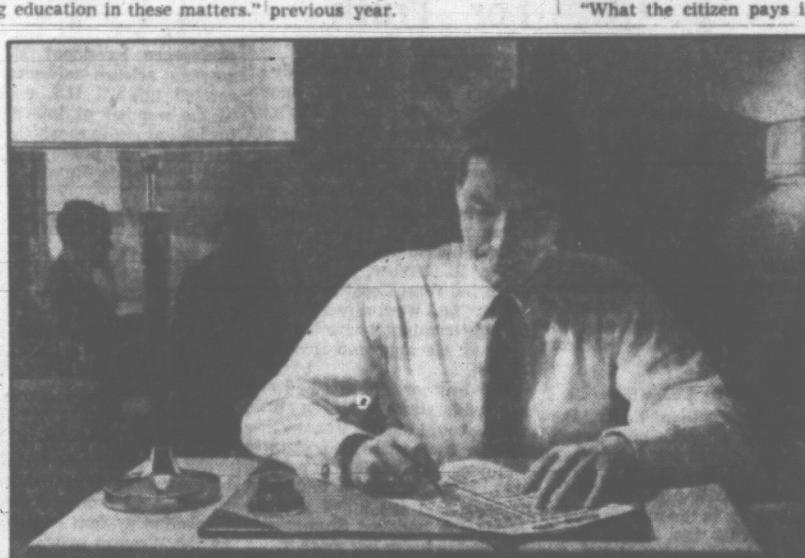

"What the citizen pays is no

Sewer Service Charge Suggested To Increase Municipal Revenues

The commission proposes "that longer a tax, but an economic municipal real property tax price for a particular service be given rather less work to do." There seems no real reason why and that it be made payable in sewer service should not be monthly instalments instead of similarly charged for, with the amount of service provided being determined by the amount of water consumption."

The commission notes that many Canadian municipalities receive each year 50 per cent of the Alberta government's revenue from gasoline tax in the previous year.

Equality for Varied Forms Of Transportation Urged

OTTAWA (CP) — A unified transportation policy tending towards competitive equality among various carriers is recommended in the final report today of the Gordon royal commission on Canada's economic prospects.

While the commission's proposals are directed primarily to railways, air transport and inland shipping — under federal control — it said they could apply with equal force to the provincially-controlled trucking industry.

A major recommendation is that steps be taken — initially through a federal subsidy — to lift the "burden" on the railways caused by the low Crowsnest Pass freight rates on export-bound grain which remain fixed under a 1925 parliamentary statute.

Eventually, the commission suggested, "greater flexibility" could be introduced into the now-rigid grain rates.

PAY FOR FACILITIES

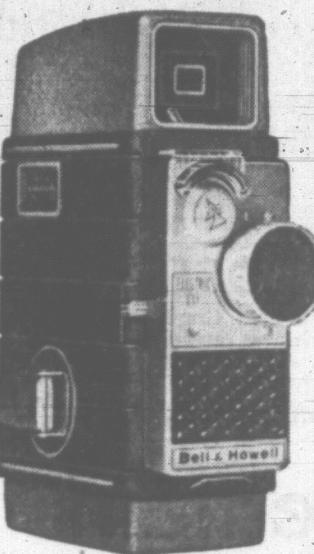

For planes, inland shipping and trucks, it suggested they should be made to pay a higher proportion of the cost of facilities they use, such as airfields, weather and navigation facilities, canals and highways.

It also proposed that the railways should have more freedom to abandon unprofitable branch lines and other unremunerative services.

While saying that a "more unified approach" should be taken by the federal government towards agencies under its control, the commission said it does not believe this can be achieved by some "super transport body" even if there were no constitutional objections to it.

"We do, however, believe it will follow."

Five Big Gas Tanks Explode in Flames

Man Killed, Two Injured in Fiery Spectacle in Northeastern B.C.

TAYLOR, B.C. (CP)—Gasoline seeping 2,000 feet to where workers were dismantling a highway bridge was believed today to have formed the fuse for an explosion-punctuated fire Monday night at a petroleum tank farm here, taking the life of one man and injuring two others.

In rapid succession five tanks containing volatile gasoline and diesel fuel erupted in flames at the Mac-Mahon plant of Pacific Petroleum Limited at this northeastern British Columbia community, 350 miles north-west of Edmonton.

The dead and injured were employees of the firm dismantling the wrecked Alaska highway bridge across the Peace River.

John Ballem, executive assistant of Pacific Petroleum, said in Calgary an accurate estimate of the loss would not be available until company officials arrived at the scene later today.

TANKS NOT FULL

Mr. Ballem said the five tanks cost about \$27,000 to build. When full they normally hold more than \$36,000 worth of gasoline and diesel fuel. But, he said, the tanks were not believed to be full at the time of the fire.

The fierce gasoline-fed fire raged out of control for three hours before it was contained and allowed to burn itself out. Flames for a time threatened Pacific Petroleum's nearby refining and natural gas scrubbing plant.

George Bishop, manager of manufacturing at the plant, said the supply of natural gas to the B.C. lower mainland and the Okanagan Valley, fed by pipeline from the plants, was unaffected.

The dead man has not been identified.

Hospital officials identified the injured only as a Mr. Yarie and a Mr. Fontaine. Their ages and hometowns were not immediately known. Both were seriously burned.

FLAMES SHOOT HIGH

No employees of the petroleum company were near the tanks when they exploded, spewing flaming gasoline 700 feet into the air.

The gasoline spread over the water and was believed to have been ignited by an open fire where the dead and injured men had been working at the base of the bridge, he said. From there, it raced back to the tanks.

Mr. Bishop stated four of the destroyed tanks each contained 2,000 barrels of gasoline. The fifth, a smaller tank, contained 1,000 barrels of diesel fuel.

Officials said the remainder of the tanks in the farm ranged in size from 5,000 to 50,000 barrels. Those involved in the blaze were "loading tanks" to which trucks are driven to be loaded.

OPENED IN 1957

The Pacific Petroleum's Taylor installation, consisting of the tank-farm, scrubbing and refining plants, was opened in 1957.

Original costs of the plants was \$15,000,000.

The scrubbing plant processes natural gas from the Peace River natural gas fields of northeast B.C. and produces raw hydro-carbon and sulphur by-products. The gas is delivered to Westcoast Transmission Company's pipeline to Vancouver.

The spectacular blaze, with flames leaping into the air and the glow visible in Dawson Creek, 40 miles to the south-east, led to early reports that

New Socred Job for Low Under Study

Defeated MPs Hold Meeting

OTTAWA (CP)—A meeting of Social Credit Party members here today is reported considering making national leader Solon Low a full-time organizer as well as leader following obliteration of the group's Commons representation in the March 31 general elections.

About half a dozen of the 19 Social Credit representatives in the last Commons met in Mr. Low's Parliament Buildings office to consider the future in the light of the election outcome. It left not a single Social Credit member in the Commons.

Among those attending the meeting was Rev. E. G. Hensell, 62-year-old veteran party member. He lost his seat of Macleod, Alta., in the election after having represented it since 1935.

WON'T SIT IDLE

During a lunch adjournment of the meeting he told a reporter he doesn't intend to let himself be "put on the shelf."

He and other Social Credit members must vacate their Parliament Buildings offices now that they have lost their MP jobs.

Mr. Hensell said he will spend some time at his home in Vulcan, Alta., before deciding on his future activities.

He said it was a bit of a shock to lose his seat after so many years. But it was not quite so bad in view of all the others who were swept out.

LINER SALVAGE TO BE TRIED BY U.S. FIRM

TRENTON, N.J. (UP)—A salvage firm was studying plans today to raise the sunken liner *Andrea Doria* from the Atlantic bottom by a bootstrap operation, then inch the hulk to shallow water.

The *Andrea Doria* lies 225 feet down off Nantucket Island where it was sunk in a collision with the Swedish liner *Stockholm* on July 25, 1956. Fifty-two lives were lost.

The AAA salvage firm hopes to be able to raise the 29,000-ton liner in the 60 days of summer weather during July and August.

"NO MYSTERY"

A Russian Embassy spokesman said: "There is no mystery. One of our engineers died from a heart attack . . . the hospital records are pure invention."

But a hospital doctor who refused to give his name "because the police told me not to talk about it," said he treated two patients for gunshot wounds

The Canadian Cancer Society will spend \$900,000 on research and related projects during 1958.

Mystery Surrounds Duel Death Of Russian at Brussels Fair

BRUSSELS (UP)—Belgian police and the Soviet Embassy joined today to enshroud in mystery the death of a Russian guard at the Soviet Pavilion of the Brussels World Fair.

3

3

Persistent reports said two Russian guards duelled with guns and that one was killed and the other wounded. The Soviet Embassy ascribed the death to a "heart attack" and Belgian police were silent.

The "admitted" book at the Brugmann Hospital here shows a Russian named Nicolai Solotowski was treated for a gunshot wound in the head on Tuesday, April 1. He died a few hours after being admitted to the hospital.

Told about the Russian Embassy denial the doctor said, "I know what a bullet wound looks like and also what a bullet looks like. Solotowski was wounded by a bullet."

American marines guarding an atomic reactor and its fuel in their pavilion have been refused the right to carry weapons or wear uniforms.

The Price of Telephones

IT IS NO SMALL RAISE IN rates that the B.C. Telephone Company is asking the Transport Board to approve. The Company says it requires an increased income of about \$6,460,000 a year which it would get from no one but the telephone users. As the population of British Columbia is about 1,500,000 the proposed rate increase must represent a significant item of cost to the average family.

The Transport Board is bound to take a long, hard look at these figures.

Does the B.C. Telephone Company really need and deserve such a sharp increase in rates? Do its investments entitle it to its existing profits, or larger profits? Are its costs of operation advancing faster than its income? And, if so, are its operations as economical as they should be?

No layman can possibly answer those questions. Doubtless they will provoke disagreements between the most competent auditors before the Transport Board. In the end, the public must rely on the Board and its experts, just as it relies on them in the case of railway rates.

The B.C. Telephone Company, like the B.C. Electric (within its own area) is a monopoly. It must be a monopoly since we cannot have two or more disjointed telephone systems in the same community. As a monopoly, it is not subject to any competition. Whatever rates it is allowed by the Transport Board to charge we must pay. We cannot take our business elsewhere.

Through the Transport Board (or through the Public Utilities Commission in the case of the B.C. Electric) the community virtually guarantees that the monopoly shall have a fair return on its money and no more. Whatever the fine printing of the law may say, that is the principle followed by the Transport Board and the Public Utilities Commission in fixing telephone and electrical rates.

Even Without the H-Bomb

M.R. JOSEPH C. HARSCH, IN A thoughtful column written for the Christian Science Monitor from London, draws attention to weapons development which has proceeded while the eyes of the world have been focused on the H-bomb.

The "bomb" has captured the attention of the public almost to the point where little discussion has arisen over conventional arms, he points out.

Yet, he notes, biological weapons were perfected during the Second World War capable of destroying as much over as wide an area as probably all the nuclear weapons now existing in the arsenals of their present possessors.

Poison gas "improvement" went on during the war and has continued since. The wide variety of types now in existence could be as dangerous as nuclear weapons. Furthermore, refinements in conventional weapons have all added to a massive destructive potential.

In other words, he says, even if the H-bomb were banned, rival powers possess other means of

The monopolies therefore know that however their costs of operation may increase, within reason, they will be compensated by an increase in rates. Hence they are not under the same necessity as a competitive industry to keep their costs down. If their investments are not prudent, if their operations are extravagant, if their wages are high in relation to other wages they can always seek compensation in the form of higher rates.

But it is not the duty of the Transport Board in the case of telephones, or the Public Utilities Commission in the case of electricity, to reward inefficiency, if it exists. When the B.C. Telephone Company requests a large rate increase it is certainly the duty of the Transport Board to find out whether inefficiency does exist, whether the cost of telephone operation could be reduced without damage to the service.

These facts are exceedingly difficult to ascertain since there is no competitive yardstick immediately on hand by which they can be measured. A rough yardstick exists, however, outside British Columbia. What telephone rates are enforced in other parts of Canada and in contiguous American States?

To be sure, the conditions of operation are not identical everywhere. Costs of construction, of materials and wages vary from place to place. Nevertheless, the public, which pays the bills, is entitled in the approaching investigation to hear whether our telephone rates are higher or lower than those of other adjoining areas; and if they are higher, or would become higher after the proposed increase, why this extra household cost is justified.

The onus of proof rests squarely on the B.C. Telephone Company. It is to be hoped the Provincial Government, through the attorney-general's department, will appear before the Transport Board and the Public Utilities Commission in fixing telephone and electrical rates.

LOOSE ENDS

Out of the Chrysalis

AS I have argued for many years (until the public will no longer listen) and as I propose to argue for only a few more years longer, until I have performed that rite for the last time, the reopening of the Canadian summer camp at this sea-

son of the year is an event far more important than most events celebrated in the newspapers. More important, for example, than the reopening of Parliament. Parliaments come and go every four or five years. The camp goes on for a lifetime at least, and much longer, through several generations, in any well-regulated, God-fearing and sensible Canadian family.

IT is, indeed, the only estate which can be willed to the young without danger of inflation, expropriation or invasion. Alone among our institutions, it is immune to the world revolution. Even a Khrushchev couldn't be bothered to revolutionize the camp. It remains safe in total anarchy. It is the last refuge of freedom. It is the only asylum left to the sane.

Hence the city man, escaping this spring from the furious changes of urban life, from a general election, from all the bewildering news of the press, from all that frantic harassment, uncertainty and alarm which we now call living—such a man is amazed to find, at the end of the trail, that the camp is quite unchanged. It is exactly the same as it was last year, or the year before, or thirty years ago.

THE non-camper (necessarily a person of shallow thought and weak affections) may not find that statement remarkable. Why, he may ask, should the camp change? What needs to be said, about a fact so obvious? Why should it occupy even this humble space in print?

The answer, sir, is that a great deal needs to be said about it, much more than this space allows or this tired old camp man has time to say.

For consider how few things are unchanged this spring. The Government of Canada is not unchanged. The national economy is not unchanged. The women's fashions, the design of automobiles, the style of public thought and, in fact, almost anything you care to mention are all violently changed.

Everything is changed except the human being, who stubbornly persists in being human, despite all attempts to reform him, and in what place, I ask with respect, can he feel entirely human except in the camp?

THERE alone he may shed the Government, the election, the national economy, the automobile, the women's fashions and, with luck, the women, too. Nay, he can even shed himself, his least desirable possession, as a butterfly sheds its chrysalis and emerges in springtime glory or, the non-camper would say, as

a snake sheds its skin, only to remain a snake.

The snake is a much-slandered creature and so is the camp man but neither cares about that. Both ask only to be left alone and bite only when attacked. Allowed to crawl through the jungle, they are harmless to society.

Yet a subtle difference can be detected, if you look closely, between the snake and the camp man. The former arises from hibernation to bask idly in the sun. The latter, after winter's idleness, goes suddenly to work. Neither accomplishes anything, of course, but there is a difference in results, though I have no time at the moment to explain it in detail.

A PART from changelessness, the spring camp reveals another great truth—the value of things.

Now, you may say that the city man knows the value of things when everything from the cost of living to the anatomical measurements of the latest movie star are minutely recorded in statistics and published daily in the newspapers.

Actually, however, the value of things is quite lost in the statistics of measurement, which change all the time until no one knows what the price of anything will be tomorrow morning or how the figures from Hollywood will swell or shrink.

The value of everything, thus measured, is obviously declining but the value of the few things in a camp, the bare essentials, never alters by a farthing, and it is a very high value.

TAKE an axe, for example. In the city

it is only a crude device of metal and wood, the price of which is constantly advancing. It can be bought in any hardware store. It can be broken, dulled or lost without inconvenience to anyone.

In the camp it is essential to life itself. Its loss would leave the owner cold before his woodless fire. A broken stove, a leaky kettle, a mislaid frying pan would leave him hungry. Society at large can absorb almost any revolution but the slightest change in the primitive society of the camp is devastating.

That is why the camp man alone has any true sense of value, any real grasp of essentials. That is why (though he may be a rabid Liberal, violent Socialist or a faithful Social Credit in town) he remains an unshakable conservative (without any partisan connotation) in the camp.

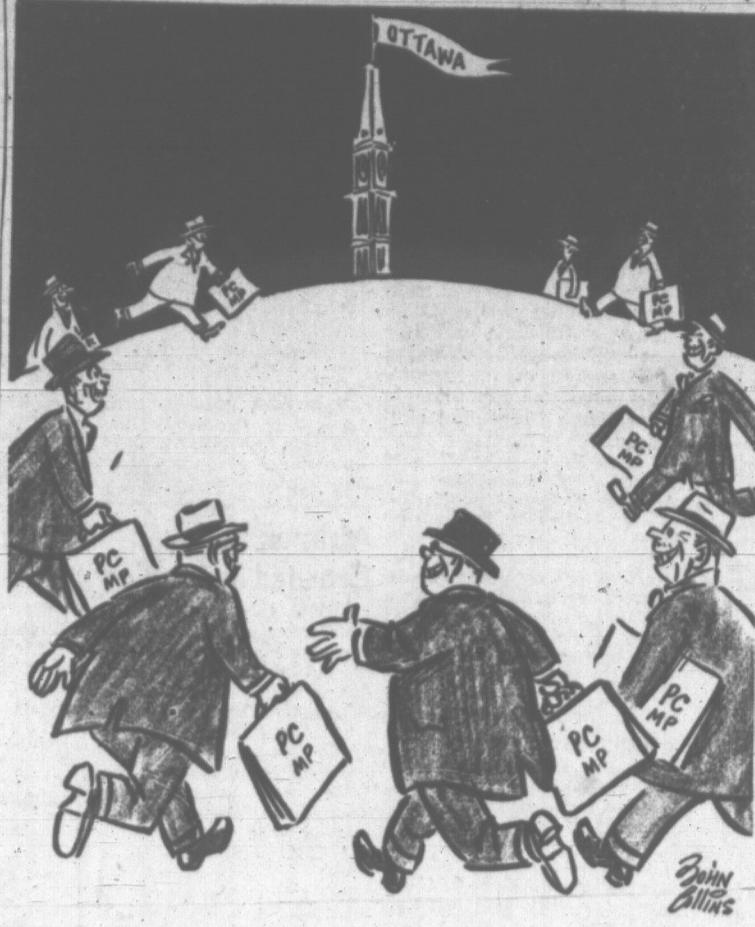

WHAT, then, is he conserving? To be sure, he is not conserving himself, for he usually destroys his health at an early age by his labors to provide ease and luxury for his summer guests, who are now meditating their annual onslaught and ravenous descent; but he does conserve something. He conserves anarchy in a world of too much law. He saves the human person from the threat of perfection. Best of all, he saves his fellows from his company now and then and you can't say that about anybody else these days.

By BRUCE HUTCHISON

As Our Readers See It

Shavian Prediction

In spite of declining markets for our exports and growing unemployment Canada's consumer price index stands at a record high 124.3 per cent based on 1949 prices. This, I believe, is a new trend in economics.

Writing in the year 1929 the late Bernard Shaw predicted this new trend, which he called the sham socialism. He maintained the middle class, the pensioner, the man who lives on his investments would be crushed between the upper and lower millstones of organized capital and organized labor.

This is clearly apparent today as we see prices and wages going up in spite of a business recession.

In the depression of the thirties prices and wages came down as fast as unemployment increased, but that is not taking place today.

ACCOUNTANT.

Need More Clothing

We would like to take this opportunity to thank our many friends for the clothing donations they have made to the welfare centre sponsored by the Seventh-Day Adventists, located at 1402 Vancouver Street.

Because of the unemployment this winter many families have needed help. As a result, we have practically depleted our supply of clothing for children up to ten years of age. We also need men's clothing. Because of these needs we hope that the good citizens of Victoria will remember us when they are doing their spring house cleaning.

The first three months of this year we gave out 1,335 articles of clothing and have helped 233 people. This has included several large families. Nothing is sold, everything is given to those who need it, and our members do the work without pay.

We certainly will appreciate any help that you can give at this time. If any-

one has articles they wish picked up call Mrs. J. Weiss at 9-3045. Those in the Sidney area may call Mrs. W. White, our leader, in Sidney at 4174.

We are open alternate Tuesdays from 10 a.m. to 3 p.m., and the telephone number at the church is 3-1510. Our next work day will be April 15 (Tuesday).

MRS. JOHN W. BOYD,
Secretary of the S.D.A.
Welfare Centre.

Forgetting Belief

E. W. Abraham should also quote the rest of that old hymn, namely the line "Rule Britannia". How can he reconcile "Rule Britannia" with "Britons never, never shall be slaves"? What are we going to do—the waves?

He says that we (the British) are in danger of forgetting our belief in God. We have been forgetting it since the Reformation. As a recent English immigrant, I can assure him that the majority of the English limit their churchgoing to attending the occasional wedding or funeral.

It's about time we dropped the idea upon Britain or the Western world. How can we hold that belief and promptly explode atomic bombs on Christmas Island?

The leaders of Russia are no doubt atheists but I have read that Western observers have been amazed to see packed churches in Moscow of all places. It may well be that a great number of people in Russia are quite religious. I wonder if they pray for Him to deliver them from us?

No, if we are going to ask for God's help we had better forget patriotism and fill up His churches now, and live and act by His word, rather than filling up the churches on the day war breaks out.

D. J. LOVEGROVE,
1919 Belmont Ave.

'A Better Way'

of financial credit power moved from London to New York after World War I. But the capitalist system can no longer be defended by armaments; it is being dissolved from within, as well as contained from without.

From the end of World War II, however, United States power has been largely designed by the joint chiefs of staff at the Pentagon: translated into political terms by Dean Acheson (Democrat) and John Foster Dulles (Republican) at the Department of State.

It would be a tragic mistake for Canada to accept the view, as endorsed by Bruce Hutchison:

"The first essential interest of Canada in the world today is the security of the United States; that takes over everything else in Canada's external relations."

The security of the United States will largely depend upon leadership of opinion in the United States, to move more into line with the evolutionary process of emergence from the old capitalist system, or so-called "free enterprise"—into something more in accord with modern economic history.

A better way than power politics is manifesting itself in the democracies of the British Commonwealth, Europe, India, and even showing signs of promise in countries where the feudal system had dissolved in European western countries.

The 'ebb tide' of the capitalist system set in about the beginning of this century. It has receded far in the United Kingdom, Scandinavia and other democracies.

The United States became the defender of the faith—faith in the capitalist system—when the paramount control

The Escape From Reality

IT was an ordeal for Secretary Dulles to have to face a big press conference a few hours after the morning papers had carried the story of the Soviet suspension of nuclear testing. He chose to treat the Soviet move as a tricky and mean-spirited propaganda stunt, which they with their closed society can exploit, whereas we in our open and free society are unable to match it. This theory may comfort him but it is, I venture to believe, a dangerous form of escapism from the hard realities of the world situation.

It rests on the notion that our many reverses and the decline of our influence are due not to defects in our policies but to the superior advantages of the Soviet Union in propaganda.

That is to say, when our products do not sell, the trouble lies not with the engineering in the quality of the product but in the packaging and the advertising. The whole world would agree with John Foster Dulles if it were not that the world is so gullible that it is being taken in by the Russians. This is flattering to our pride but it is not true.

Nuclear Testing

Consider, for example, the subject of nuclear testing which Mr. Dulles was discussing.

He pointed out, quite truly, that the Soviet Union has just completed a series of tests whereas we are preparing to make a series of tests this spring and summer. The Soviet trick is, he says, to suspend the tests which they do not now need for some time to come, hoping to prevent us from making our tests which we very much need to make.

But is this such a difficult trick to deal with? The natural way to deal with it would be to say that when we, like the Soviet Union, have completed our tests, we too will suspend further testing provided the Soviet Union does not resume testing.

The world is not so gullible that it would not understand the common sense of this retort.

This retort is not, however, open to us because the controlling fact is that our military position in the world is built upon the deterrent power of nuclear weapons.

It happens that Mr. Dulles spoke of our desire "to eliminate nuclear weapons effectively from the international arsenals." But why he said this, why he made so Utopian a remark, I cannot imagine. For the elimination of nuclear

weapons would make quite impossible the strategic containment through a network of alliances to which he is committed.

This is the real reason why American propaganda works badly. If we cannot or will not revise our policies, Mr. Dulles would do better to be candid and to tell the world frankly that we cannot suspend tests because we cannot abolish nuclear weapons without a revolutionary change in our foreign policy.

He could then argue that the Russians with their massive conventional forces and their interior lines cannot be contained without nuclear weapons. This would not make him beloved in the world. But it would make him believed.

Obsolete Policies

All this applies to much more than the particular issue of nuclear testing. American propaganda is in trouble not because the Russians are able to lie with impunity but because in so many critical areas American propaganda is trying to sell policies which for one reason or another are obsolete, are fictions, are profoundly unpopular.

There is the central fiction in the Far East that Formosa is China, and that the actual government of China on the mainland ought to disappear. No propaganda can make a policy based on that fiction credible, much less convincing and inspiring.

In South Asia there is the fiction, which defies strategic geography, that we are arming Pakistan to defend the Middle East against the Red Army. This is a fiction which has earned us the deep suspicion of India.

In the Middle East there is the fiction that the Arab states will remain with the West if only we can prevent the Soviet forces from invading them.

And in Europe, there is the fiction that Adenauer's Germany will absorb East Germany and that in some unknown way the Red Army will roll itself back out of Eastern Europe.

Progress Comes, Garden Goes

THE last time I passed that way, the southeast corner of the Empress Hotel grounds was a barrens of filled earth. Mechanical equipment was located there and a few shrubs and trees left an imperfect screen between the mark of the bulldozer and Belleville Street.

In time, I understand, the area will be levelled and bulldozed into a spacious parking ground.

Progress, bless it, has come.

In place of nature's untidy thrust of green and bloom, the neat, even stretch of tarpaulin will cover a sterile acre.

It shouldn't be any concern of mine. This is the CPR's business. And the CPR's business in this instance is catering to the wants of hotel guests from whom the company expects and receives revenue.

But when the mineralized surface finally goes down, it will seal a tomb on some of the days of my youth.

FRIENDLY COURT

In a more leisurely time, the southeast corner of the hotel grounds was devoted to a clay tennis court. It was shut off from the rest of the garden area by a heavy trellis over which roses were trained. A big shade tree grew at the northeast corner of the court and a grass boundary, with flower borders next to the trellis, added to the attractiveness of the setting.

A youth who was a friend of the management might use the court when it was not taken over by hotel guests, and the guests seldom invaded it.

That was an era in which you dressed in cream flannels, white shirt, and one of those long white sweaters with different colored neck bands when you were playing tennis.

It was still the day when people could lob their shots back and forth in pleasant exercise and were courteous enough to spare the beginner sizzling serves, overhead smashes, and whistling drives. Tennis was a friendly game that went with blazers and straw boaters.

YOUR HEALTH

By DR. WALTER C. ALVAREZ

Diagnostic Aid

Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation

MANY people go blind because the retina or the seeing membrane in the back of the eye becomes detached from the globe of the eye. In the past it has sometimes been tacked down again by a special operation. Dr. Donald Shafer, of the eye bank for sight restoration at the Manhattan Eye, Ear and Throat Hospital in New York, and Dr. Joseph A. C. Wadsworth and Graham Clark of the Institute of Ophthalmology of the Presbyterian Hospital in New York, have been working on a new and very promising method in which some of the vitreous humor (the substance that fills most of the eyeball) is injected into the eye of the person who is going blind. This pushes the retina back into place where it may become attached. In 48 per cent of 50 consecutive operations good restoration of vision was accomplished.

DEVICES FOR PARALYZED

A while ago I gave the name and address of a man who has invented a machine to turn over pages or to handle a typewriter, which can be used by one who is completely paralyzed from the neck down. Now, I read in the National Foundation News of the Foundation for Infantile Paralysis about Herbert Merrill, Scarborough, Me., an electrical engineer who is almost completely paralyzed by polio. He has devised a number of electrical switches for people who share his predicament. One of them he is selling under the name of "Switch-O-Matic." It has five electrical outlets and can be wired so that the slightest pressure will control a radio, a rocking-bed, a telephone, the lights in the room, or almost any combination of electrical devices the patient will select. Merrill is able

MUSCULAR CONTRACTION

It is probably good news for sufferers from muscular dystrophy that the great biologist, Dr. Albert Szent-Gyorgyi has now reported that our old ideas of muscular contraction were wrong. Instead of there being one chemical which is essential to contraction, there are at least two, and one of them is of basic importance. Dr. Szent-Gyorgyi thinks that possibly muscular dystrophy is it may be a nucleoprotein. Today, a tremendous amount of research is being done on the extremely important nucleoproteins.

HOME GARDEN

By JACK BEASTALL

Trouble With Clay Can Now Be Beaten

Mrs. G. L. of Gordon Head, writes: "While plants do fine with a little nursing along, it is a waste of time to sow seed in our heavy clay."

"Artificial watering to supply the needed moisture for germination causes the clay to pack, crack and turn to concrete as it dries."

Mrs. G. L. is one of many local gardeners who are beset by this unfavorable condition, but there is a ray of hope for all clay dobers.

On the market today there are several soil conditioners which may be adapted to assist seed germination, beside the compost which every gardener should make from waste vegetation.

Since the average clay gardener has insufficient compost for all his garden, the little he is able to make should be used to the greatest advantage.

For seed sowing, a drill is made about two inches deep and this is filled with compost which has been passed through a screen (or riddle) with a mesh one-half inch square.

The seed is sown directly into this compost and lightly covered with the same material, possibly screened a little finer in the case of small-sized seeds.

Of the marketed preparations, the horticultural form of vermiculite called terralite, crushed volcanic rock such as earth-aid, the peat mixture known by the name of blue whale, and straight peat moss, may be used in the same way suggested for compost.

In the case of the straight peat moss, germination is sometimes inhibited by its acid reaction, but the addition of a little agricultural lime appears to help.

If we can create favorable conditions for the seedlings they will soon be strong enough to overcome the clay, and usually turn into better plants than are found in a sandy soil.

GEORGE JEAN NATHAN

Top Broadway Drama Critic Nathan Dies

NEW YORK (AP) — George Jean Nathan, sharp-tongued dean of Broadway drama critics for many years and associate of the late H. L. Mencken, died today at 76.

With him at the end was the wife he married when he was 23 and she was 45.

Nathan, who was an author and an editor of *The American Mercury* and other magazines, had been ailing in recent years. The cause of death was not announced.

He died at the Royalton Hotel, on the fringe of the Broadway theatrical district, in the room he had lived in for 34 years.

Nathan's reviews were widely credited with a profound effect in improving the American theatre. He was the author of two score books, most of them devoted to the theatre and wrote several plays.

Wheat Disposal Plan U.S. 'Aid to Canada'

NEW YORK (BUP) — Secretary of Agriculture Ezra Taft Benson denied today the United States' surplus wheat program is a threat to Canada. He also denied the program has lowered world wheat prices.

Benson answered a brief questionnaire on the subject submitted by British United Press. He said that, far from injuring Canada, the wheat disposal program will help Canada in the long run by removing a substantial part of the American surplus, by increasing the demand for wheat products throughout the world and by fostering a general economic development and developing markets for farm products in many lands.

Fire Destroys Supper Club At Lantzville

Loss Estimated Near \$10,000

LANTZVILLE — Fire of undetermined origin Monday night caused extensive damage to the Lantzville Supper Club, a dive and dance establishment, and was fought two hours by volunteer firemen from Lantzville and Wellington.

Unofficial estimates place the damage at \$10,000. The rear of the large one-storey building was gutted.

Lantzville Fire Chief A. D. Caillet said it was believed the fire started in the basement. The alarm was turned in about 9 p.m. and firemen had the blaze under control by 11 p.m.

The flames had such a hold that the one pumper of the Lantzville department was not sufficient to quell flames and Wellington firemen were called on to assist with another pumper.

There was no one in the building at the time.

Owner is a Vancouver businessman.

Kinsmen Leader Tells of Growth In Island Areas

CHEMINUS — Kinsmen welcomed three new members this week. Initiated into the club were Gordon Jay, George Anderson and Jim Clare.

A brief history of the association was given by Alex McAulay. Pat Shea, Nanaimo, explained to the new Kinsmen what the association expected of them. Aims and objects of the association were given by Len Robinson. Deputy Governor Bill McLeod. Port Alberni, administered the Kinsmen oath to the initiates and welcomed them into the club.

Reporting on his activities to date, Mr. McLeod said the Island zone was enjoying the greatest expansion of any zone in B.C. Three new district clubs will be chartered by May. He congratulated the local club on its attendance record and urged a good turnout at the district convention at Courtenay in May.

Carol Shillito Wins Poster Competition

CHEMINUS — A poster contest for Grade 8 students, sponsored by the local centennial committee, was won by Carol Shillito. She received first prize of \$5. Ruth Zemek won second prize of \$3, while third prize of \$2 went to Russel Niehaus.

FINES, PRIZES PLANNED FOR SIDNEY BEARD DAY

SIDNEY — Awards for the biggest, blackest, reddest, wildest and most stylized beards will be made during Sidney Day celebrations over the July 1 holiday. Sponsoring prizes for the facial flora will be the Sidney and North Saanich Community Hall Association.

Consideration is being given to fining men without beards \$1, and the same fine for anyone growing a beard without a permit. Those penalized would be given tickets to the July 1 Mardi Gras ball.

The suggestion has also been made that women of Sidney wear old-fashioned dresses this summer to keep traditional pace with the men.

Shipowners Hail Ripple Rock Blast

SEATTLE (AP) — The United States Navy joined with Seattle steamboaters, tugboats and fishermen Monday in expressions of delight over Saturday's decapitation of Ripple Rock in Seymour Narrows on the B.C. coast.

A spokesman for the 13th naval district said: "We are happy to see that our sisters to the north were successful in removing this most serious navigational hazard in the inside passage to Alaska. We are grateful to them."

Praise also came from the Alaska Steamship Company, Alaska Freight Lines and Foss Tug and Barge Company, which have already sent several vessels through the narrows since the Canadian government touched off the 2,750,000 pounds of explosives that blew the top off "Old Rip."

The general feeling of skipper who knew the narrows when "Old Rip" was ruler and who have gone through since the 2,500-foot narrows were cleared to at least a 47-foot depth was expressed in a radio from Capt. Robert Nordstrom.

"LOTS OF ROOM"
Nordstrom is skipper of the Alaska steam freighter Galena. After he came through the narrows Monday morning on his way to Seattle from Ketchikan he radioed: "She's beautiful . . . nice wide . . . lots of room."

Alaska Steamship operates 180 trips a year one way or the other through Seymour Narrows. Capt. Henry Stern, assistant operating manager for the firm, said: "With the rock there, we could stem the tide on a 7.8-knot current. Now we can go through with a fair tide, ebbing or flooding, without any trouble."

Husbands! Wives!
Get Pep, Vim; Feel Younger
Thousands of couples are weak, worn-out, exhausted because body lacks iron. For new "Oster" tablet after each meal. Each tablet contains 100 mg. new pep, vim; plus supplement dose Vitamin B₁. In a single day, Oster supplies as much iron as 16 oz. raw oysters; 4 lbs. of liver; 16 lbs. of meat; 15 oz. dried apricots; 16 oz. dried raisins; 80 oz. Or get Economy size and save 75¢. All druggists.

CHEMINUS —A poster contest for Grade 8 students, sponsored by the local centennial committee, was won by Carol Shillito. She received first prize of \$5. Ruth Zemek won second prize of \$3, while third prize of \$2 went to Russel Niehaus.

VIKING VIEWS

By IAN SMITH

One of the last of the Victoria College sports organizations to close shop was the bowling club.

While the last regular Thursday meeting was held March 27, the executive arranged a windup tournament to be staged the day later.

Hugh Ney and Sonia Tesluk walked off with top honors as they netted respective scores of 716 and 689 for their three games. Hugh's gross score was 722, while Sonia rolled 623 without her handicap.

Mick Auger took second spot in the men's division with 574-99-673, while Janice Butler recorded a 621-48-699 score to capture second spot in the women's division.

Bill Gosling's single 145 game, while it didn't win him any scoring prizes, did qualify him for the hidden score award.

Announced at the conclusion of the tourney were the year's statistics for the club. Janice Butler and Sonia Tesluk dominated the women's section throughout the year as well as in the windup tourney as they alternated first and second positions in every department.

Janice recorded the highest single score, 324, topped the year's averages with a 179 mark, and was second to Sonia in the race for triples honors with 733.

Sonia, who had a high single-game score of 316 and a 171 average, rolled a three-game score of 762.

Kay Bell fired third highest single game, 300, while Arlee Gale had the third best average, 170, and also came third in the triples with a 687 total.

Honors were more evenly distributed in the men's section.

Barrie Foster's 220 average was tops for the year, while his single game of 386 was also first in the club. His three-game score of 769 was good for third place.

Hugh Ney captured second place with a 292 average and was second in the triples race with 775.

Fred Fedorak tied with Hugh for second spot with an identical 202 average, while Moe Zibin recorded the second-best single game, 345.

Roger Hollick and James Costain each rolled games of 339 to tie for third spot in best single-game scores. Costain also recorded a three-game total of 787 to win top honors in that department.

In the team race, Team 2 came out on top with 46 points, while Teams 9 and 10 were in second and third places with 45 and 44 points respectively.

Final averages for the year follow:

Men — 1, Barrie Foster (220); 2, Hugh Ney (202); 3, Fred Fedorak (202); 4, Ralph Turner (199); 5, Gary Udy (199); 6, Gerry Patrick (195); 7, Barry Gelling (194); 7, Pat Floyd (194); 9, John Elliott (191); 10, James Costain (188).

11, Bill Gosling (186); 12, Mike Nash (185); 13, Bob Coulter (184); 14, Roger Hollick (183); 15, Dave Dawson (179); 16, Bob Saunders (179); 17, Don Cook (175); 18, Ron Dalby (172); 19, John Davies (170); 19, George Faerber (170); 19, Ed Peersons (170).

22, Lyall Wilkinson (168); 22, Bruce Huxtable (168); 24, Larry Rantz (167 1/2); 25, Moe Zibin (167); 26, John Plotnikoff (166); 27, Larry Nickolchuk (163); 28, Bill Corless (161); 29, Ron Cook (158); 30, Mick Auger (156).

Women — 1, Janice Butler (179); 2, Sonia Tesluk (171); 3, Arlee Gale (170); 4, Marie Watchorn (158); 4, Janet Wallace (158); 5, Kay Bell (158); 7, Arlie Smalley (155); 8, Marilta Neil (154); 9, Anita Hemmingsen (147); 10, Celine Miller (144).

11, Kathleen Wood (142); 11, Marilyn Farmer (142); 13, Lydia Price (141); 14, Barbara Williams (139); 14, Val Parkin (139); 15, Laurel Beale (137); 17, Eileen Boychuk (136); 18, Margaret Somerville (134); 19, Angeline Mar (132); 20, Jessie Smith (131).

TIME OUT! *Jeff Keay*

HAND-PICKED WINNER

Cards Could ... With Luck

ST. PETERSBURG, Fla. (AP) — Although Milwaukee is favored to repeat as National League champions, it looks like another wild scramble with the St. Louis Cardinals picked here to sneak home first.

The Braves are oddsmakers' choice off their eight-game pennant victory in 1957 and their triumph over New York Yankees in the world series. But this observer, who picked the Braves a year ago, is not convinced they have the stuff to repeat.

They both look good, dear. Why don't you use my old reliable method to decide . . . Eeny, meeny, miny . . .

SERIES STARTS TONIGHT

Toe's Main Wish Is to Step First

MONTREAL (CP) — Coach Toe Blake's No. 1 problem when the Stanley Cup final opens tonight is to prevent Boston Bruins from getting the first-period jump on his Montreal Canadiens.

Sports Shorts

NEW CHAMPION

BOSTON (AP) — Jim Poole, a southpaw who has been playing the game only four years, today ruled as the United States men's singles badminton champion. The former basketball star at San Diego State College upset defending titlist Finn Kober, of Copenhagen, 15-8, 6-15, 15-8.

ROAD STOPPED AGAIN

WHITE PLAINS, N.Y. (AP) — Pancho Gonzales increased his lead over Lew Hoad in their professional tennis tour Monday night with a 6-2, 6-4 victory before a crowd of 2,800. The world champion now has a 28-23 margin in their 100-game series.

TREMENDOUS TOSSES

FAYETTEVILLE, Ark. (AP) — Big Al Oerter, Olympic champion from New Hyde Park, N.Y., three times bettered the existing world record for the discus throw in the University of Arkansas relays Saturday. The blond giant's best throw was 202 feet, six inches—an even eight feet farther than the old record.

NO TROUBLE HERE

NEW ORLEANS (AP) — Lightweight Ralph Dupas, of New Orleans, tuned up for his championship battle with Joe Brown next month with a surprisingly easy 10-round decision over welterweight Ramon Fuentes, of Los Angeles, Monday night.

THEY'RE OFF

FORT ERIE, Ont. (CP) — A total of 7,613 defied snow, flurries, glowering skies and near-freezing temperatures Monday to open the Canadian thoroughbred horse racing season at the Fort Erie Jockey Club. The spring meeting here will continue for 24 racing days through Saturday, May 3.

Sunday Curling For Club Title

Play in the Sunday Commercial Curling League is the show-down stage this weekend.

Four rinks in the running for the club championship will play semifinals at 9:30 a.m. Winners will play at 1:30 p.m. for the championship. Rinks in the semifinals are Beech, Six-Mile House, Renfrew and Bullock.

Because of dwindling attendance, president J. Moir said there will be no curling for the other 28 rinks.

It's for Juveniles!

Players in the juvenile division of the Greater Victoria Minor Lacrosse Association will hold workouts in Stevenson Park tonight and Friday, starting at 6 p.m.

Lost 3 Hours Saanich Tots Cause of Worry

A pair of lost Saanich children kept police, school children and neighborhood residents busy combing a wide area for three hours Monday afternoon before they were found.

Sandra Couper, 3, daughter of Mr. and Mrs. Douglas Couper, 2761 Victor, was visiting with Mrs. W. W. Dunn, 3214 Glasgow, when she disappeared at 12:20 p.m.

Somewhere she met Darwin Cunningham, 5, son of Mr. and Mrs. John Cunningham, 3216 Maple, a short distance from the Dunn home.

The pair set off together on their wandering adventure.

FOUND BY GIRL

Sandra was found by Trudy Reagh, 11, of Bear Creek, who was visiting Mr. and Mrs. R. R. McGregor, 668 Canterbury. She was walking along Canterbury when she saw them both, the little girl crying.

Trudy took Sandra into a nearby house, nearly two miles from the Dunn home. The boy, who was riding his tricycle, went on.

He was found later on Carey Road near Mount View High School by his mother and her brother, Ron Burnham, 948 Lyall.

Both children were tired but unharmed.

BOY SCOUT ACTIVITIES

By FREEMAN KING

JAMES BAY GROUP: At a recent investiture Garry Lowe, Dick Hooper, Roy Miller and Allister Reeves were made Wolf Cubs.

Billy Andrews earned his microphone badge, and gardeners badges went to Ricky Cunningham and Nicholas Marsden. Richard Howard was promoted to a "sixer."

SIDNEY GROUP: Leslie Litwin, Roger Perry, Paul Crossley and David Mason passed their swimming test at the Crystal Garden.

Michael Sparks has transferred to the Sidney troop from the Deep Cove group and has been appointed patrol leader of the Lion patrol. Jonathan Slater moves on to be troop leader.

Slater and Roland Shanks have received their religion and life awards.

Service stars were presented as follows: first year, Fred Silvergierter, Richard Sansbury, Roger Perry, Bruce Wilson, Leslie Litwin, and David Mason; second year, Michael Litwin, Douglas Alexander and Melvin Dear; third year to Rodney Coward; fourth year to Jonathan Slater and Roland Shanks.

Satellite Pictures Taken by Japanese

TOKYO (Reuters) — The Tokyo Astronomical Observatory said Monday night it has taken pictures of the American satellite Explorer 1 for the first time.

HERE FROM THE TROPICS to publicize the MRA film "Freedom," to be shown at the Odeon Theatre next Monday and Tuesday, are South Africans.

Ezra Ncwana, left, and Kenneth Gladwyn, centre, and Nigerian Magnus Adiele. (Times Photo.)

TO CHANGE HUMAN NATURE'

Young Africans Yield Careers To Follow Moral Re-Armament

By DINAH KERR

Two young Africans believe so strongly in Moral Re-Armament they have given up promising careers to dedicate themselves to the "supreme task of changing human nature."

ONCE REVOLUTIONARY

In real life, he was the co-founder and first president of the African National Congress Youth League, "the voice of youth in South Africa," which was dedicated to a program of "bloody uprisings" against the whites, Ezra said.

As a member, Ezra felt the only salvation for South Africa was through revolution. But now that the whites are beginning to accept the responsibility for conditions in the nation, the congress is "beginning to see things in a different light."

Ezra himself was caught by the "challenge of MRA." "Either we get together or we'll blow up together."

CAREER ABANDONED

Ezra has never taught, and at present has no plans to begin a career.

"I have sacrificed my career to be anywhere the force of MRA is operating," he said.

Magnus Adiele, 26-year-old physics student at the University of London, and Ezra Ncwana, 24, college-educated teacher, are here to promote the MRA film, "Freedom," which opens at the Odeon Theatre Monday at 8:15 p.m.

Magnus, a Nigerian, says his greatest ambition is "to make a success of physics."

"But in this scientific age of guided missiles man himself has not found guidance in hitting his own target," he said. "We must put re-making of the world first. Then physics will fall into line."

Ezra himself was caught by the "challenge of MRA."

"I'm a stranger in town and I thought — since I'm alone and you're alone — we could —

"Sorry, I'm busy!"

"I still got that gun in your back! Don't you make a move, Johnny boy."

"I know what I will do — I will find the missing champion cock that she wants back so badly, and I will keep him!"

"Pleased to meet you!"

"I know — but Rollo is rich and he fills his gun —

"With his sister's expensive perfume!"

"Shh! The hidden microphone! ... Listen!"

"It's the scuba divers down in Nick's joint. Come to Bloopervitch himself, noted inventor of the 'Jinx' ship-tracking device, has been flown from Moscow to address us... He'll be here at any moment."

"A toast to Bloopervitch, undoubtedly he's coming to command us for attaching his ingenious invention to the American warships."

"Okay, pardner, you'd better be off this earth by sundown!"

"Hey, buddy! There's a new kid on the block wearing a space suit!"

"Well fix him, Tex!"

"Yeh, this is cowboy country!"

"When I do that you sock me!"

"I know — but Rollo is rich and he fills his gun —

"With his sister's expensive perfume!"

"Huzzah! Yes, yes! Most certainly!"

"Unquestionably he's coming to command us for attaching his ingenious invention to the American warships."

"Good heavens, Oola and her friend, Jack East, seem to be in a tough spot!"

"Well, it's not like we can't put a period to that affair!"

"No, wait! Hold every thing!"

"Want? My stars, I thought you were in such a sweat to get her back from there!"

"Well, course I am..."

"But th' way things look now, I figger it'd be better if I went back there myself. Oh!"

"Well, that's right, doc, only double it!"

"I could sure use \$250,000 myself!"

"Huzzah! Most certainly!"

"Unquestionably he's coming to command us for attaching his ingenious invention to the American warships."

"Okay, pardner, you'd better be off this earth by sundown!"

"Hey, buddy! There's a new kid on the block wearing a space suit!"

"Well fix him, Tex!"

Love Life First For Lana

By VERNON SCOTT
United Press Hollywood Correspondent

HOLLYWOOD (UP) — Lana Turner, whose love life overshadowed her acting talents, began her screen career on the strength (and size) of her curves.

Those same charms won her four husbands, innumerable romances and, finally, led to the Good Friday tragedy in which her daughter, Cheryl, plunged an 8-inch knife into her mother's latest lover, mobster Johnny Stompanato.

Platinum-haired, blue-eyed Lana is the first to admit her feature rests snugly on her roller-coaster figure.

BRIEF FLASH
"I was one of those photographic accidents," she maintains. "In my first picture I was a 15-year-old kid (only a year older than Cheryl, who now faces a charge).

The picture, "They Won't Forget," was her only action was to undress across the screen. The title proved prophetic. She was immediately tabbed the "Sweater Girl" and her rocket to stardom was launched.

In her second picture Lana was one of 5,000 extras shoved into the background of "Marco Polo," which starred Gary Cooper.

EYEBROWS GONE
"I played a Harem girl, and they shaved off my eyebrows," Lana recalls. "They never grew back. To this day I have none. For pictures and parties they have to be drawn or pasted on." Loss of eyebrows did not affect the Turner curves, and that's what the public wanted to see.

Lana was the last of the "drugstore discoveries." Though it reads like a press agent's pipe dream, the well-rounded young star was found, sipping a soda fountain malted, by Billy Wilkinson, a trade paper publisher. He arranged an interview at Warner Brothers that led to Lana's contract with producer Mervyn Leroy.

Until recent years Lana was considered a second-rate actress. But her greatest triumph came earlier this year when she was nominated as best actress for her motherly role in "Peyton Place."

HEADLINES HIT
Universally panned by picture critics, Lana has made more than 35 pictures, snagging Hollywood's best actors as leading men, including Clark Gable, Robert Taylor, and Spencer Tracy. While her movies made money, Lana kept the headline writers busy on her own time.

Following her four-month marriage to band leader Artie Shaw, the movie sex goddess fell in love with Steve Crane. She says of that marriage, "I am lonely unless I have someone to love, and there was Steve. I married him."

They settled down in a mansion, but Crane wasn't working and Lana's career hit a momentary snag. In quick succession the beautiful actress discovered (1) Crane already was married to Carol Kurtz, and (2) she (Lana) was pregnant.

HURBY DRAFTED
The marriage was annulled, but six months later the couple was remarried in the squalor of Tijuana. Shortly after Crane was drafted.

Cheryl was born an RH factor baby and almost died in infancy. The strain drained Lana's physical and financial reserves. When the bills were paid the curvaceous glamour girl was "one of the biggest box office stars in history." But she was flat broke!

Crane was discharged from the army for medical reasons, and in January, 1944, when Cheryl was six months old, the Cranes called it quits. "Having married in haste and remarried in desperation, having no life together, it was an alliance that couldn't last," Lana said after the divorce.

There followed a four-year whirl of romances, including a lengthy idyll with Tyrone Power. She had exchanged her

Ex-Filmland Hoodlum Cohen Found Guilty

LOS ANGELES (UP) — The dapper Cohen left for Woodstock, Ill., shortly after the verdict to attend the funeral Wednesday for Johnny Stompanato, his ex-bodyguard, knifed to death by actress Lana Turner's 14-year-old daughter, Cheryl, last Friday.

Cohen, talkative little ex-gambler, was convicted Monday of two counts of misdemeanor battery and disturbing the peace after brief deliberations by a jury of nine women and three men.

Black, who also filed a \$50,000 damage suit against Cohen, charged the 30-year-old ex-mobster hit him when he accidentally brushed him during a party at the restaurant for entertainer Sammy Davis Jr.

Black, who also filed a \$50,000 damage suit against Cohen, charged the 30-year-old ex-mobster hit him when he accidentally brushed him during a party at the restaurant for entertainer Sammy Davis Jr.

Police Hunt Knife-Wielder

(From CP Dispatches)

VANCOUVER—A knife-wielding thug threatened a woman only eight blocks from where a mother of two was stabbed to death in Vancouver's East End 33 hours before.

Police said the incident occurred at Broadway and Commercial at 8 a.m. Saturday.

The woman threatened was 42-year-old Mrs. Evelyn Dorothy Roach. Thirty-three hours earlier, at about 11 p.m. Thursday, Mrs. Evelyn Roche, 39, was stabbed and slashed to death in a lane half a block from her home.

Police have launched an all-out hunt for the man who attacked Mrs. Roach.

Mrs. Roach, the second woman, described her accoster as about 25 to 30 years old, 5 feet 10 inches in height, weighing 150 pounds, of fair complexion, wearing a blue jacket and brown pants.

She said he stopped her and showed her a stag-handled knife "in a threatening manner".

SHIPPING HEAD CRITICAL

VANCOUVER—A shipping official has criticized the standard ruling that prohibits passengers from going ashore immediately a ship docks.

Sir Donald Anderson, managing director of the P & O Line, referring to the line's luxury liner Himalaya and its 1,024 passengers, said Monday he had never encountered a similar ban in world ports.

The 28,000-ton liner berthed here Sunday night. Only a dozen "preferred" passengers were allowed off. Scores of relatives and friends who lined the dock were not allowed aboard.

BURNED TO DEATH

CLOVERDALE—The body of an 84-year-old, identified as John Mooney, was found Monday in the charred ruins of his

home on the old McClellan Road near here.

First reports to the RCMP indicated the aged man had died when his two-room cottage was destroyed by flames, possibly started by an explosion.

BODY IDENTIFIED

VANCOUVER—Body of an Indian girl found in the water off Gambier Island last Thursday has been identified as that

of Miss Sonja Johnson, 19, of North Vancouver Indian reserve.

The body was discovered by the crew of a fishboat.

Police said death was due to drowning and there were no marks of violence.

MAN HELD IN STABBING

PENTICTON—A 43-year-old Penticton man is being held in connection with the wounding

of Simon Lizard in the Okanagan city Saturday night.

RCMP said the man being held is suffering from a badly cut forearm.

Lizard, 48, was found on Timmins Street Saturday night bleeding from wounds in the chest and abdomen. A woman with the injured man was booked on a drunk charge.

Police found a four-inch knife in the area.

Mother, 4 Children Die in Fire

downhill on State Highway 146 when Heaton slammed on the brakes.

He crossed the trailer jack-knifed across the road into the path of the oncoming Taylor car.

Just what caused Heaton to jam on his brakes was not known, White said.

Many types of cancer can be cured by radiation or surgery, or a combination of both. Regular medical check-ups on persons over 40 years of age may reveal cancers in a curable stage.

BAXTOWN, Tex. (UPI)—A mother with her four children in her car tried vainly Monday night to avoid collision with a gasoline truck but failed. She, the four children and the truck driver died in a flaming explosion.

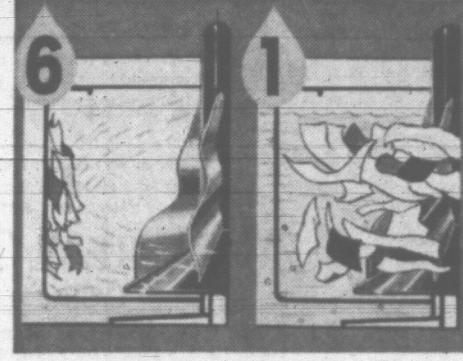

Mrs. Mary Edna Taylor, 33, was driving two miles north of here Monday night and as her car rounded a curve she saw that a tank truck had jack-knifed across the road.

Truck driver Milton Heaton, 26, also was killed.

Mrs. Taylor swerved her car off the road but couldn't clear the truck, public safety department said.

"Until I got my INGLIS I didn't believe an Automatic could wash so much cleaner"

...says Mrs. Roy G. Jones

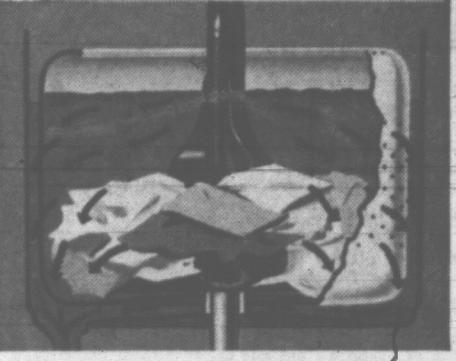

INGLIS 7 RINSES leaves clothes super-clean. Away goes loosened soil and left-over suds in a sequence of 6 power-spray rinses plus 1 two-minute agitated deep water rinse.

INGLIS LINT FILTER automatically works full time at all water levels, no matter how big or small the wash load. You get super clean, lint-free wash.

INGLIS TWO-SPEED, TWO-CYCLE action is like having two Automatics in one. Low Speed—Short Time for sheerest fabrics, and Normal Speed—Normal Time for regular fabrics.

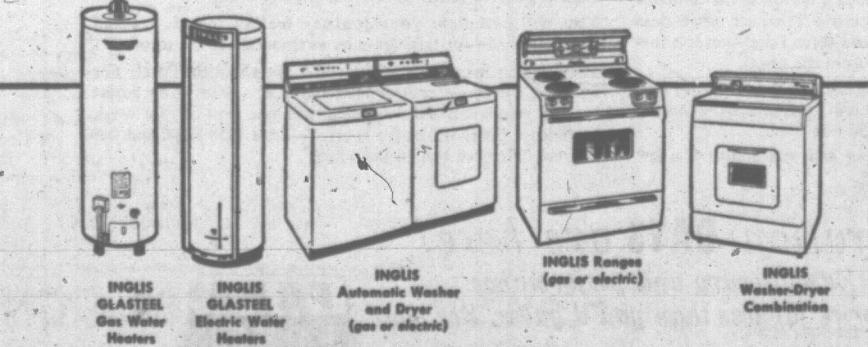

INGLIS FREE-FLOW DRAINING means that dirty wash and rinse water are both drained away from clothes...not forced to drain through them.

NEW \$70,000 FIREPROOF WING of Art Gallery, Moss Street, is now half finished. Work started in December and is expected to be complete in mid-summer. One-storey fireproof addition means major

... HERE
AND THERE ...
With NORMAN CRIBBENS

Victorians visiting London next month will probably journey a few miles out to leafy Petersham chuchyard for the perennial ceremony at the graveside of Captain George Vancouver.

Having done this in rain, wind and shine for nine years running, I cannot share the thrill of novelty Mr. and Mrs. Roy Cannone expect when they go there May 18 to commemorate the 201st anniversary of our founder's birth.

W. A. (Bill) McAdams, our genial agent-general in the United Kingdom, makes sure that few British Columbians visit London in May without attending the ceremony.

And from British Columbi-

ans residing in London he takes no excuses.

"Where can we pick you up?" is Mr. Mac's usual approach.

Most of London's mayors, including the lord mayor, are persuaded to attend.

Victoria visitors to this year's ceremony will probably include Miss Gertrude Moore, Miss Clara M. Brown and Prof. Charles Burchill, a lecturer at the Tri-Services College, Royal Roads—all leaving for London within the next few weeks.

There, too, will be Brigadier William Colquhoun of Langford, a distinguished soldier of the First World War, who is already in London.

Riley H. Allen, editor of The Honolulu Star-Bulletin, has apologized publicly in his paper for a news item referring to the naval docks at Esquimalt, Vancouver.

He did so, of course, after receiving an admonishing letter from publicity commissioner George Warren.

* * *

One of many Americans who were surprised by the landslide Conservative victory writes.

"Mr. Diefenbaker seems a most impressive figure and he is certainly a rugged campaigner."

Prof. Sheean, a student of Canadian history, is senior management analyst at Benicia arsenal.

* * *

I hear that two-seasoned Canadian National employees are soon to retire.

They are R. A. (Art) Bell, transportation assistant at Point Ellice, and R. S. Collinson, district freight agent in Victoria.

Both have completed more than 40 years' service with the company.

art exhibitions will be held here. Expansion also includes parking space for 20 cars, and full basement. Two galleries are included in plans by architects Clack and Clayton. Builder is M. P. Paine Co: Long-range plans call for a \$1,000,000 gallery.

RCN Frigates To Accompany 'Big O' Home

Two frigates of the RCN's Pacific Command will leave Esquimalt, Wednesday afternoon to join company with the training cruiser HMCS Ontario on the homeward leg of her voyage to Australia and New Zealand.

HMC Ships Stettler and Antigonish are scheduled to reach Pearl Harbor, April 14, and after a two-day stay, steam out to meet Ontario between Suva and Hawaii.

The meet is scheduled for April 22.

The three ships are due at Pearl Harbor, April 24, will leave April 26, and make port at Esquimalt, May 5.

Workers Want HBC Closed On Mondays

Members of the retail clerks' union at Hudson's Bay Company department store here have gone on record favoring a five-day shopping week with stores closed all day Monday.

The group, representing about 50 per cent of the employees, will ask support of Victoria Labor Council.

The action stemmed from city-council decision last week to conduct a poll of all city merchants.

Boyle was charged with possessing stolen property listed as hardware and sports goods.

It was not known where all the property was stolen from.

He was remanded to Thursday for sentence.

Court was told they removed three manhole covers from a dark street March 24 and when a neighbor spoke to them, one became abusive and continued to remove the covers.

Spokesmen for some employee groups have criticized council for not taking their desires, nor the desires of the shopping public, into consideration.

A spokesman for the Hudson's Bay Group, Local 279, Retail Clerks' International Association, pointed out the store now observes a "five-day" week—but many employees are required to take their day off as half-days. The days off are staggered and do not permit workmates to enjoy time off together.

Council poll will be conducted Wednesday through publication of a questionnaire in local newspapers. It is returnable to city hall before April 15.

Delegates Start Arriving Here For PTA Parley

Delegates started arriving this afternoon for the 36th annual convention of the B.C. Parent-Teacher Federation, which opens at Oak Bay Junior High School Wednesday at 9:15 a.m.

More than 600 are expected to attend the opening session of the three-day meet.

Tonight delegates will attend an orientation session in the junior high school at 8.

Wednesday morning will be devoted primarily to committee reports with a keynote address on education by Dr. Malcolm McGregor, UBC, at 11:30 a.m.

Meals for the delegates will be served at the school.

Sun to Shine Between Storms

Sun will shine briefly Wednesday between two storms, weatherman Bill Mackie said today.

A weak weather system carrying fairly heavy cloud and rain is expected to pass later today.

"But another disturbance is approaching," Mr. Mackie said.

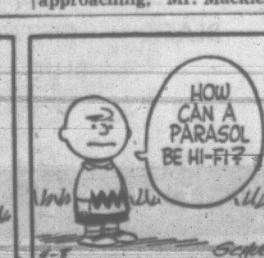

ASK The TIMES

Q. Could you please tell me how to get to the new zoo that has recently been built in the Highland district, and when it is open?—J.F.

A. Take the West Saanich Road from the city to Wallace Drive; go along Wallace to Durrance Road, then follow the signs to the zoo. It is open from dawn to dark. Entry charges are 50 cents for adults, 35 cents for students and 25 cents for children.

Q. Do you know if an 1882 American silver dollar is worth any more than \$1?—W.C.

A. In new condition it has a collector's value of \$140.

MLA Asks Law Change On Labor Conciliation

Move Would Bar Aldermen From Sitting on Boards

Victoria MLA George Gregory today called for an amendment to B.C. labor laws which would bar municipal officers from serving on conciliation boards.

The move follows city of Victoria objection to appointment of Vancouver Ald. Halford E. Wilson as union nominee to a board now sitting on wage disputes between Victoria firemen and city council.

Ald. Wilson, in Victoria today, said Mr. Gregory must not be "familiar with the intent of B.C. legislation."

MORAL WRONG'

The flare-up over conciliation board nominations began at city council March 27 when Ald. Austin I. Curtis said it was a "moral wrong" for Alderman Wilson to serve on a board which dictates wage rates in another municipality.

Ald. Wilson has been a fire department conciliation nominee for seven years and this year also will serve as police union nominee on a board meeting Wednesday.

In a letter to council today, Mr. Gregory said,

"I hope that you will consider the suggestion... of a government-sponsored amendment to the appropriate legislation."

WILL TRY BILL

"If, however, you do not do so, I feel that I shall have no alternative but to bring in a B.C. Municipalities

public bill in the hands of a private member, at the next session, to attempt to accomplish this purpose."

Ald. Wilson told the Times in interview:

"There is nothing in the legislation now which states an elected representative is disqualified from sitting on any board of conciliation or arbitration."

"Anyone who is appointed to the board is not appointed as an advocate for the party nominating him. He is completely impartial and the spirit of the law is that he must be..."

"When Mr. Gregory proposes a bill, it would indicate to me, he is not familiar with the intent of labor legislation."

The Vancouver alderman said he is himself an employer and could not be described as a "labor man."

"My sole interest is in trying to see labor and management come together in a spirit of conciliation."

Labor Minister Wicks wrote council he would watch with interest to for pertinent recommendations, if any, by the fall convention of the Union of

New Companies In B.C. Hit All-Time High

'What Recession?' Ask B.C. Officials

The number of new provincial companies registered in B.C. hit an all-time high last month when 267 firms were listed in government books.

"That's the largest number registered in any month in this province since 1862 when B.C. began registering companies," Stanley Taylor, registrar of companies, said today.

NEAR 40,000

The new additions bring the present number of active companies, incorporated societies and co-operatives in B.C. close to the 40,000 mark.

The past five months have seen 1,189 new firms registered, an increase of 20 per cent over the corresponding period a year ago.

"We hear a lot about recession these days," Mr. Taylor said. "Well, you certainly couldn't prove it by our books. The reverse seems true."

Ripple Rock Post Mortem Probes Earth Crust Depth

By JOHN MIKA

An intensive post mortem of Ripple Rock's spectacular "death" is under way at the Dominion Astrophysical Observatory in Saanich.

FIRST BLAST

The first depth charge blast, blown 10 minutes before Ripple Rock was destroyed, occurred only 10 miles from Victoria off Constance Bank. The second was detonated off Hope Island at the northern tip of Vancouver Island 20 minutes later.

Both depth charge readings will provide a check on accuracy of the Ripple Rock reading and, more important, will reveal the depth of the earth's crust beneath the blast site.

This information is necessary for comparison with readings that will be obtained from inland points before scientists can compute the thickness of the

earth's crust under the whole province.

Four seismographic stations were "tuned in" for the depth charge blasts and all their readings are needed for an accurate computation.

In each case, out of millions of shock waves radiating in all directions, one particular wave is selected for analysis.

This is the "on" wave, traveling at about four miles a second, which shoots down through the earth's crust in a vertical line until it hits the "mantle" — the core of the planet on which scientists believe the crust floats.

Making a right-angle turn it travels horizontally along the mantle until, reaching a point directly below the instruments, it makes another right-angle turn to rise in vertical line to the seismographs.

KNOWN FACTORS

"The horizontal distance is a known factor," Mr. Milne said. "So, by making equations from the various readings, we can determine the length of those vertical distances, which gives us the thickness of the crust under Ripple Rock."

When this answer is obtained, it will be related to the recordings made by the chain of seismographs stretching from the coast, through the mountains and onto the prairies.

This relationship will allow a mathematical plotting of the thickness of the earth's crust beneath the chain of stations and, may, as some scientists expect, show that the crust is thicker under the mountains.

On a table were part of a large bottle of rubbing alcohol and glass containing a mixture of water and rubbing alcohol, partly consumed.

The dead man's mother, Mrs. W. E. Bradburn, lives at 904 McClure.

Instead the cost was born by B.C. Hospital Insurance and the B.C. Cancer Foundation.

"Cancer is a very deceiving disease," she said. "You can't be too careful. The slightest symptoms could mean trouble."

Through foundation financing the clinic was able to give Mrs. X a biopsy, in which tissue was checked for cancer free of charge by technicians of the pathology laboratory here.

Because of the foundation, she was entitled to free regular checkups at the clinic during her course of treatment and at intervals since.

Mrs. X is "fat and happy" again. And this is the moral of her story.

DANGER SIGNALS

Seven danger signals of cancer are:

Unusual bleeding or discharge.

A lump or thickening in the breast or elsewhere.

A sore that does not heal.

Persistent change in bowel or bladder habits.

Persistent hoarseness or cough.

Persistent indigestion or difficulty in swallowing.

Change in a wart or mole.

"Cancer is a very deceiving disease," she said. "You can't be too careful. The slightest symptoms could mean trouble."

"The diagnosis is not easy to take, but living in the dark only makes it worse. I had enough faith in the doctors today to know that some cases can be cured."

Mrs. X will never forget her "debt" to the cancer clinic.

UNAWARE OF AID

Before cancer struck, she said, she was like "a lot of other people—I wasn't aware that the cancer foundation was ready to help me."

This year, for the first time, Mrs. X is going to help the foundation through the Victoria Conquer Cancer Campaign.

She will do her part for the month-long provincial campaign by canvassing in the North Saanich area from a list of "special names."

Conquer Cancer goal in B.C. is \$250,000.

Local headquarters are in the Black Ball Ferry Building, 316 Wharf Street.

SHOPPING GUIDE

All Types Lips Lovelier With Automatic Brush!

By PENNY SAVER

It's a perfect lipline you'll have m'lady if you'll try this automatic lip brush. To use, you simply remove cover and the brush pops up.

Lips too thin? Then fill them out with this brush. It's easy.

Maybe you're troubled by wide lips that give you too big a mouth? Slim them down with the brush. It's only \$1.75. It may have been the zipper, I don't know, but I've fallen for a plastic travel kit full of cosmetics. The new zipper on this kit is toothless. It doesn't catch or slip. Inside the soft plastic case are creams, powders and lotions packed in unbreakable containers. What a buy and what a gift for that special friend who's off on a trip!

For the very gay person, I've found a new nail polish and it's gold! Called Cellini-gold (Italian) this truly gorgeous mixture is just the thing for those extra special evenings. It will look heavenly with just about any shade...especially black! Be different and a little 2-3131.

CLUB WOMEN'S NEWS

Symbols At a meeting of the Women's Auxiliary to the Metropolitan United Church, Rev. Laura Butler gave a talk on the tradition of the Easter symbols. Mrs. G. A. R. Stelck presided and devotions were taken by Mrs. Frank Mack. Afternoon tea was served by the Loyal Group.

Annual Tea—Mrs. John F. Page, wife of the rector, officially opened the annual daffodil tea and bazaar of the Afternoon Guild of St. Matthew's Church, Langford. A sum of \$140 was realized. Guild president, Mrs. L. Horner, received the guests. Tea was served by Mrs. A. Ashdown, Mrs. W. T. Sims, and Mrs. H. Smith. Acting as servers were Mrs. C. Conneron, Miss Molly Powers, Mrs. N. Wolski and Mrs. Reg Guyton. Tea tickets were in charge of Miss L. M. A. Savory and Mrs. A. F. Baylis. Needlework stall was run

PRINTED PATTERN

Half-Size Step-In

Half-Sizers! If you're looking for a daytime dress that can go to dinner too — this is it! A step-in, styled along slimming lines, it's a Printed Pattern proportioned to fit and flatter.

Printed Pattern 4723. Half sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16 requires 4 yards 39-inch fabric.

Printed directions on each pattern part. Easier, accurate. Send fifty cents (50¢) in coins (stamps cannot be accepted) for this pattern. Please print plainly size, name, address, style number.

Firemen's Ball

A three-dimensional, old-time fire wagon and horses, suspended from the ceiling of the Crystal Ballroom in the Empress Hotel, behind the orchestra dias, will set a motif for the annual Firemen's Ball to be held on Friday, April 18.

Patrons for the event include His Honor the Lieutenant-Governor and Mrs. Ross; Premier W. A. C. Bennett and Mrs. Bennett; Mayor Percy B. Seurah and Mrs. Seurah, and the fire wardens and their wives.

Charlie Hunt's orchestra will play for dancing. Dress will be formal and a supper will be served from 11 p.m. to 12:30 a.m.

Committee in charge of arrangements includes J. D. Stewart, secretary-manager; R. J. Coates, president, Firemen's Mutual Benefit Society; P. Graves, vice-president; C. Robins, master of ceremonies; W. Jones, assistant MC; G. Hansen, decorations, and G. Kulai, committee member.

A special reception for honor guests will be held before the ball in the Princess Louise Room at the hotel, with Fire Chief J. E. Bayliss and Mrs. Bayliss acting as hosts.

... it's exciting!

Oh! How dry the winds leave even the best complexions! I've hunted around to try and find an answer to this dry skin problem and finally I've tripped over a clue! It's in the form of a small jar of soft, soft, cream, just chock full of hormones! So many, in fact, I could almost see them dancing about in the jar! It's a \$1.50 value, and a little goes a long, long way to true skin beauty.

Shopping with me? Then give me a buzz on the phone at 2-3131.

For the very gay person, I've found a new nail polish and it's gold! Called Cellini-gold (Italian) this truly gorgeous mixture is just the thing for those extra special evenings. It will look heavenly with just about any shade...especially black! Be different and a little 2-3131.

COURSES PLANNED TO TRAIN COUPLES

MONTREAL (CP) — The YWCA and Montreal marriage counselling centre has organized special courses to show engaged couples how to avoid the "pitfalls" of marriage.

"It's a form of preventive medicine," said Mrs. Dorothy Barrier, executive director of the centre.

"We're not trying to take the romance out of courtship. But rather give young couples an insight into the marriage partnership before the wedding day."

Louise Davis answers:

I don't think it is too late to rectify the oversight and the sooner it is done, the better.

Your daughter owes her grandparents something while she still has them, not because they sent her cheques and bonds but because they are her grandparents.

She doesn't necessarily have to shop for them, for grandparents, who are blessed with the wisdom and experience of the years, are aware that young married people often exist on a shoestring. The tangible wants of people in their 80s become less and less, but they still crave love and

WEDDING MID-MONTH

Mr. and Mrs. Hubert Cashman, 454 Newport Avenue, have announced the engagement of their youngest daughter, Pamela Charman, to Mr. Carl Christopher A. Rossner, eldest son of Wing Charman and Mrs. A. Rossner of Vancouver, B.C. Marriage will take place Saturday, April 19, at 7 p.m. in First United Church, with the Rev. R. McElroy Thompson officiating. (Photo of Miss Cashman by Campbell Studio.)

LOUISE DAVIS

On Etiquette

Neglecting grandparents:

Our daughter married and is living out of the province. Her grandparents, who are in their 80s, live here.

They have always been very generous to her by giving her cheques and bonds for every birthday, Christmas and Easter. My daughter is good about acknowledging the gifts and also

attention. Love and respect cannot be measured in terms of presents. The nicest gift of all would be continued loving letters at frequent intervals. But with a few cents and a little thought, an inexpensive gift now and then would give the grandparents untold joy, even if it is only a handkerchief or a dime store trinket.

Luncheon Party

The women's committee to the Art Gallery is arranging a luncheon for gallery members and friends on Monday, April 14 at 1 p.m. in the gallery. There will be an informal talk later by the curator, Colin Graham. Reservations are limited to 100 and can be arranged by telephoning Mrs. D. Leechman, 2-9557.

Lake Hill Subdivision, Catholic Women's League, annual meeting and election of officers, Wednesday at 8 p.m., Women's Institute Hall.

Louise Davis answers:

I don't think it is too late to rectify the oversight and the sooner it is done, the better.

Your daughter owes her grandparents something while she still has them, not because they sent her cheques and bonds but because they are her grandparents.

She doesn't necessarily have to shop for them, for grandparents, who are blessed with the wisdom and experience of the years, are aware that young married people often exist on a shoestring. The tangible wants of people in their 80s become less and less, but they still crave love and

WHY GROW OLD?

By JOSEPHINE LOWMAN

Have you ever sat in a public place and actually observed people as they pass by? If you haven't, you should try it, for it will be a dramatic education in what characteristics add up to an attractive appearance and what detract from it. It is truly an amazing experience.

Along comes a woman who waddles from side to side, throwing her weight from side to side rather than forward with each step. She is immediately noticeable in an unattractive way no matter how she looks otherwise.

Next you may see one who has what I call a "twitchy walk."

This hits your eye with such force that you hardly look to see whether she is pretty or not. The twitchy type springs slightly from the knees with each step, throwing the hips (back view) from side to side with every stride.

Then there is always the chest high, mincing step of the woman who is wearing spikes as she tries to balance her body weight on these two tiny supports. Then, of course, there is the shuffling walk. The woman in question does not really pick her feet up and lay them down.

The way you walk has such a great impact on the general impression you make that the shape of your lips or nose or the way your hair is fixed might go unnoticed. The two factors which give an immediate impression, and such a strong one, are a woman's walk and her posture.

Let's forget the walk for a while and look at the posture of those you see. Any woman you just naturally look at twice is no doubt carrying herself very well, with her head beautifully poised, her spine straight, her abdomen pulled in and her

posture, I think we should all check ourselves in these two matters because good carriage and a graceful walk are two aids we can carry into older years unless we become the victim of some illness or accident which makes this impossible. However, most women who do not have good posture or a graceful walk have just fallen into these habits without realizing it, and most of them could correct it.

It's a strange thing! You practically never see a woman who has lovely posture who does not have an attractive walk, and vice versa.

Too often we allow poor posture and an awkward walk to slip up on us without realizing what is happening. So, let's check these two assets which we can take down the years with us!

It's a "lonesome road" when you go by car...

Wool-Knit Is Versatile This Spring

Wool knitwear, adaptable, packable and wearable in any climate, is high fashion in the spring collections. It sheds wrinkles, holds its shape, can be worn north, south, west, east or in the tropics. It goes to cocktail parties and dinners now; can be dressed up or down. In some cases, the removal of a little jacket turns a daytime ensemble into a dinner dress. Both designs shown here are by Goldworm.

The sheath in solid royal blue wool knit appears in company with its own jacket. Jacket is striped in blue and white, slips off to reveal sheath with simple, straight lines and very narrow straps.

A wool knit dress that's all delicate, carefully engineered line is this design for late-day wear. Diamond-shaping through the bodice gives this design its sleek fit, which makes the most of the wearer's figure.

Lois Burns Weds William Fraser; Ceremony in First United Church

In a candlelight ceremony at First United Church, Miss Lois Anne Burns, only daughter of Mr. and Mrs. F. D. Burns of Lyall Street, became the bride of William Rogers Fraser, son of Mrs. A. Fraser of Easter Road.

Baskets of white flowers decorated the church and small colonial bouquets marked pews for the ceremony which was conducted by Rev. A. L. Higgins.

CLUB CALENDAR

Cifax Rebekah Lodge No. 1, IOOF in Oddfellows Hall, tonight at 7.30.

Island Temple No. 8, Pythian Sisters, Knights of Pythias Hall, Cormorant Street, tonight at 8 p.m. Birthday banquet to celebrate 52nd anniversary of the temple.

Evening Guild, St. John's Anglican Church, Colwood, Thursday at 8 p.m., parish hall.

Hospital Alumnae Reunion

The Royal Jubilee Hospital Nurses' Alumnae are holding their annual reunion dinner at Victoria Golf Club on Friday evening. Sitting at the head table will be Mrs. James McCague, president of the association; Mrs. A. Ault, director of nursing education at the hospital; Miss Mary Richmond, director of nursing, and Miss Marjorie Ellis, president of the Student Nurses' Association. Guests will be members of the alumnae who are graduates of the hospital.

A Post-Nuptial Party

Mrs. E. Cooper entertained with a post-nuptial reception at her home on Oak Bay Avenue to honor her son and daughter-in-law, Mr. and Mrs. Robert Cooper, who recently arrived from France to make their home here. The young couple were married in Paris in March. At the reception the refreshment table was centred with a cake inscribed with the French words "Nouveaux Mariés" ("To the Newlyweds"). This was flanked by tall, white candles and bowls of graceful tulips, daffodils and narcissi. Toast to Mr. Cooper and his charming French bride was proposed by Karen Thompson. There were 60 guests present, among whom were the groom's aunt, Mrs. M. Hurst, of Anchorage, Alaska, and a cousin of the groom, Mr. Peter Thompson, from Edmonton.

Reception

Victoria Parent-Teacher Council will be host tonight at a reception in Oak Bay Junior High School for 600 delegates attending the 36th annual B.C. Parent-Teacher Federation convention Wednesday to Friday at the school. Among officials in the receiving line will be Mrs. Marjorie Wills, council president; Mrs. W. V. McDonald, provincial president, and

members of the provincial board of directors.

Social Evening

Officers of HMCS Venture and their wives will enjoy a social evening Friday in the HMCS Venture wardroom, HMC Dockyard. Lieut-Cmdr. Kenneth MacKenzie is in charge of arrangements for the affair.

Grace Soles Married In Vancouver on Weekend

St. James United Church, Vancouver, was scene of a wedding last Saturday afternoon when Marguerite Grace, daughter of Mrs. George H. Soles and the late Mr. Soles of Vancouver, and Clifford Cecil Madill, Victoria, B.C., son of Mrs. L. E. Madill, Regina, Sask., were united in marriage.

Rev. Stanley Pinkerton performed the ceremony. The church was decorated with spring flowers.

Miss Joan Werner, Regina, niece of the groom, sang "Oh Promise Me," and "Through the Years," during the signing of the register.

Entering the church on the arm of her brother, Kenneth Soles, the bride was radiant in a full-length gown of white lace and tulle. The fitted bodice featured a scalloped neckline and lily point sleeves. Rows of lace in a straight panel at the back extended to the hipline. The full skirt swept into a train. Sequins and pearls studded the bodice and matched the headpiece which held the bride's chapel-length veil. Her cascade bouquet was of red roses, white heather and stephanotis.

Matron of honor Mrs. William Fisher and junior bridesmaid Miss Joan Werner wore similar gowns of lace and net in apple green and canary yellow respectively, with matching stoles. Little white bandeaux were worn in their hair and they carried bouquets of daffodils.

A pink frock of embossed nylon was worn by two-year-old Lillie Thompson, who was flower girl. Her bandeau was of white net and she carried a nosegay of marguerites.

William Fisher was best man and Robert Salter and Kenneth Krawi ushered.

A reception in the St. James church hall followed the ceremony. A three-tier cake topped with two doves centred the bridal table and was cut with an heirloom knife belonging to the bride's grandmother.

Toast was proposed by Rev. Pinkerton.

For a wedding trip to Harrison Hot Springs, the bride wore a sheath dress of green tweed. She had a white straw pillbox hat and white accessories.

The young couple plan to live at Sidney, B.C., where the bride is teaching in the elementary school.

Prior to the solemn benediction of the French church St. Jean Baptiste on Monday, Mme. Georges Terrien was hostess at a reception at her Joan Crescent home "Au Vieux Quebec."

Pictured at the gathering, from the left, are the Consul-General for France, M. Louis de Laigue, Mme. Terrien, the Comtesse de Laigue, Mme. Beaudoing, Dr. Beaudoing.

Of Personal Interest

Visitors

Mr. and Mrs. G. L. Landon of 2731 Burdick Avenue had as their guests during the holidays their daughter, Margaret, of Calgary, Alta., and their granddaughters, Sharon Hay, Vancouver, and Heather McConnachie, Penticton.

From Mainland

Mr. and Mrs. R. Bissenden have as their house guest Mrs. Bissenden's niece, Miss Dale Brown, Vancouver. Miss Brown is a student at Lord Byng high school on the mainland and is spending the holidays at the Bissenden home on Doncaster Drive.

She is survived by her husband, Sydney J. of Victoria, and a son, Mr. and Mrs. Margaret and a 22-year-old son, Mrs. McMillan and Miss Phyllis Hocken, all of London, England, and Mrs. John Colegrave, a widow. Funeral services in Hayward's Chapel on Wednesday, April 9th at 1:30 p.m. Rev. Roy Douglas officiating. Interment in Royal Oak Burial Park. Courtenay parking west of Chapel. (Edmonton papers, please copy.)

DEAN—At Parksville, V.I., on April 8, 1958, Captain Arthur Dean, aged 68 years. He leaves his wife, Gladys; a son, Kenneth Arthur, of Seattle, Wash.; three grandsons; and a daughter, Mrs. D. J. James, in Newfoundland; four brothers, George Thomas, in Newfoundland; Captain William of Gibson's Landing, and Robert, in Alaska. The late Captain Thomas was a member of the Royal Canadian Air Force, R.A.M.C., and a member of Western Gate Preceptor. Funeral services from McCall Bros. Floral Funeral Chapel on Wednesday, April 9, at 2:00 p.m. Rev. Canon A. E. Greenhalgh officiating. Interment in Royal Oak Burial Park. Courtenay parking west of Chapel. (Edmonton papers, please copy.)

'AFTER AN ETERNITY RIVER THREW ME UP'

Three Men Cheat Death Running Mighty Fraser

VANCOUVER (CP)—Three men told the story Monday night of the mighty Fraser River, a small boat and near death.

The trio—Dr. Ted Olivier, 32, and Noel Baker, 30, both of Lillooet, and Tony West,

26, of Vancouver—said they brought a 14-foot power boat through 500 miles of the treacherous Fraser only to lose it and barely save their lives when caught in a whirlpool about 100 miles east of here.

The three are believed to be the only men to run the river from Prince George in a power boat. One man is reported to have done it on a raft, another in a canoe.

Insurance companies refused the three short-term life insurance on the trip.

They made it safely through turbulent narrow Hell's Gate in the Fraser Canyon.

At Yale, 110 miles from the sea, they hit the whirlpool.

Dr. Olivier said one moment they were riding the crest of a wave and the next they were spinning helplessly in the sucking pool. Then the boat went over. The doctor was thrown out.

"I was sucked down—straight down. The water was brown, then black. I couldn't do a thing. I completely gave up hope. I must have gone 50 feet down," said Dr. Olivier.

"After an eternity the river threw me up on the bank about 75 feet down."

West said he and Baker managed to cling to the boat until they could make their way ashore.

Then it was sucked down. With the boat went all their personal equipment including a movie camera.

CHARTWELL, England—

Sir Winston Churchill Mon-

day night entertained Prime

Minister Macmillan and Lady

Dorothy Macmillan at dinner

at his country home.

Indeed, I suspect that if our public relations and advertising experts take up the challenge, the egghead may emerge as the 20th century man of distinction," added Dr. Bissell who this summer succeeds External Affairs Minister Sidney Smith as president of the University of Toronto.

"This increased respect for the intellectual arises, in part, from a sense of collective sin, from a conviction that we have followed too much our own materialistic desires."

LONDON—Palace circles reported Monday that Princess Margaret may be named governor of one of the British Commonwealth countries.

The sources suggested that the 27-year-old princess, strong-willed but lonely, would like to assert her individuality more strongly.

The decision on any governorship for Margaret would be up to Queen Elizabeth. Margaret had a two-hour talk with her sister Sunday at Windsor Castle.

TOKYO—Dr. Yasuo Miyake said today that radioactive contamination in the western Pacific is 10 times that in the Atlantic because of U.S. nuclear tests.

THE CORPORATION OF THE DISTRICT OF Saanich ZONING BY-LAW NOTICE OF PUBLIC HEARING

NOTICE is hereby given that all persons who deem themselves affected by the provisions of the proposed "The Zoning By-Law 1954 Amendment By-Law 1955, No. 3." The Corporation of the District of Saanich, will be afforded an opportunity to be heard on the matter at a meeting of the Municipal Council at a Public Hearing to be held in the Royal Oak Women's Institute Hall, adjacent to the Municipal Hall, Saanich, on MONDAY, April 14, 1958, at 7:30 p.m.

A copy of the proposed by-law may be inspected at the Municipal Hall, Royal Oak, between the hours of nine o'clock a.m. and five o'clock p.m. on any week day except Saturday.

The above amendment will have the effect of resuming the following property:

(a) The most northeastern portion of Lot 1, Section 44, Victoria District, 120' x 120' on the south side of 20th Street, and 120' x 120' on the south side of Arbutus Road, just east of Sherwood Road, for church or school purposes.

(b) Of Section 47, Lake District, containing 2.5 acres, situate on Cherry Tree Road, for auto court use.

G. RAYWARD, Municipal Clerk.

Put...
...that's the manager's chair!

The Royal Bank is looking for young high school graduates with their eyes on the manager's chair and who will study to win advancement. Listed below are good reasons why the "Royal" offers young men exceptional career opportunities and a solid future. Discuss this advertisement with your parents... ask your local manager to tell you more about the opportunities for young men at the Royal Bank.

Solid facts that spell "opportunity" for you in the Royal Bank:

1. The "Royal" is North America's fourth largest bank. More than 900 branches are in operation and new ones are being opened all the time. During the past five years we have opened 133 new branches, each one creating new managerial positions... and resulting promotions for young Royal Bankers.

2. "Influence" plays no part in advancement at the Royal Bank. Our senior officers from the Chairman and President down started as juniors in small branches and advanced on merit alone.

3. Home study banking courses are available to all staff members. Suc-

cessful candidates advance quickly. Practical experience plus the banking course is equivalent to a university course in Commerce.

4. For young men interested in gaining international banking experience, the Royal Bank has 82 branches abroad... in New York, London, Paris, Central and South America, Cuba and the West Indies.

5. We have generous pension plans that compare with the best, as well as group, health and hospital insurance, at low cost to employees.

Get our booklet "Your Future in Banking" at your local branch or write Head Office for a copy.

THE ROYAL BANK OF CANADA

Canada's Largest Bank

5 Branches to serve you in Victoria and Colwood

GORDON

Continued from Page 1

At a press conference, chairman Walter L. Gordon emphasized the relationship between his forecasts and sound government policies. If the current recession deepened into a depression, he said, all of his forecasts would be thrown out of joint.

Asked how he related Prime Minister Diefenbaker's proposed 15 per cent switch in Canadian imports from the U.S. to Britain with the commission's predictions that foreign trade will grow mainly in the U.S. Mr. Gordon said most people would like to see an increase in Anglo-Canadian trade.

He himself had been a member of the Dollar-Sterling Trade Board, designed to expand Canadian trade with Britain. But it would be "unrealistic," he said, to not recognize the great difficulties in achieving such a switch.

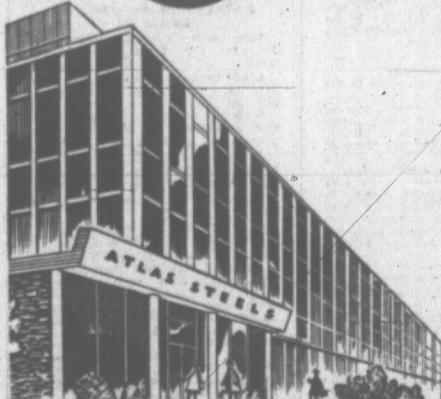

"I was sucked down—straight down. The water was brown, then black. I couldn't do a thing. I completely gave up hope. I must have gone 50 feet down," said Dr. Olivier.

As to whether Mr. Diefenbaker's proposal would harm Canada's export chances in the U.S., the question had been "answered" by the March 31 election results, Mr. Gordon said.

INCO METALS AT WORK IN CANADA

Stainless Steel puts a lasting smile on the face of a building

Now under construction; the modern office building of Atlas Steels Limited in Welland, Ontario, will have a bright, shiny stainless steel exterior. The stainless steel used in the curtain walls of this building contains Inco Nickel.

GORDON 22 Victoria Daily Times TUESDAY, APRIL 8, 1958

Auto Plants To Curtail Operations

SAN FRANCISCO (AP)—Shut-down schedules and layoffs were announced by two auto assembly plants in the San Francisco Bay area today.

General Motors said Chevrolet passenger car and Fisher Body plants in Oakland will close down April 21 through April 28,

affecting about 1,065 employees.

Out of line dealer inventories

was the reason given.

Ford said its assembly plant at Milpitas, which closed Friday for a week, will shut down for another week April 18. The plant will start laying off about 400 of its 1,900 workers because of reduced sales, the firm said.

Are those crusts and scales PSORIASIS?

If they are, use Siroil.

For 25 years psoriasis sufferers have learned that Siroil tends to remove those unsightly crusts and scales. If lesions recur, light applications of Siroil help control them. Siroil won't stain clothing or bed linens. Offered on 2-weeks - satisfaction or - money-refund basis.

'Space Ball' Firing Planned By U.S.

WASHINGTON (UPI)—If the "space ball" experiment proves successful, it could provide the world with its first naked eye view of a U.S. satellite in orbit soon by the Reynolds Metals Co.

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—the improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough

that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of even 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance called Bio-Dyne—the discovery of a famous scientific institute.

Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H Suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores.

Satisfaction guaranteed or money refunded.

GORDON REPORT HIGHLIGHTS

Final Gordon Report Blunt On Relations With Neighbor

(From Times News Services)

OTTAWA—Blunt facts about Canada's trading relations with the United States are contained in the final report of the Gordon Royal Commission on the nation's economic future.

Released by the government today the 300,000 word document finds that Canada's expansion in the next quarter century will be more than ever tied with the republic to the south, because that is where its greatest market lies.

But there are hazards and pitfalls to be avoided.

The report is a document warning of dangers of unemployment, inflation, shrinking overseas markets and foreign control, but building hopes of rising incomes and population and a possible tripling of national production.

The commission kept to its original 25-year forecasts made in the preliminary report of January, 1957—of a population increasing by some 10,000,000

Greatest share of Canada's trade increase likely will go towards the United States.

Prospects of large, new free-trade moves are unlikely; Canada should hold the line on present tariff level.

Canadian vulnerability to U.S. economic recessions likely will decrease, though U.S. unemployment and recession will be felt for many years.

Canadian agriculture should avoid measures that would stimulate over-production and reduce average farm incomes.

Competing transport services should be helped to pay their own way, avoiding waste and duplication.

Government "might well" open the Montreal market to Prairie oil if wider access to the U.S. market is not achieved.

A new national energy authority should be responsible for development, export, import and consumption of all forms of energy.

Atlantic region residents should be helped to move elsewhere if economic development there is inadequate.

"Unreasonable" demands for domestic processing of mineral resources could lose foreign markets.

Defence spending likely will remain high, but will become a smaller part of total national expenditure.

Anti-combines law should be modified to allow more large-scale, lower-cost production.

Municipalities could obtain added revenue through a charge for sewer service and a municipal vehicle tax on an assured proportion of provincial motor vehicle revenue.

Theatres Bombed

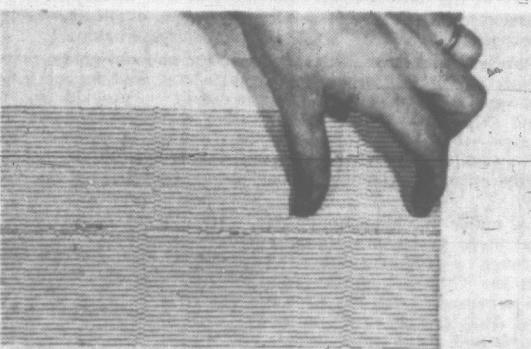

JAKARTA, Indonesia (CP)—A hand grenade exploded in front of two adjacent theatres in the central Java town of Cheribon Monday night, wounding 30 persons.

Ike Challenges Nikita To Accept A-Arms Ban

Red Test Halt Not Sincere

WASHINGTON (AP)—President Eisenhower today challenged Nikita Khrushchev to go beyond a mere end to nuclear testing and accept dependable supervised disarmament "if the Soviet Union is as peace-loving as it professes."

That was the essence of Eisenhower's reply to an April 4 letter from the new Soviet premier in which Khrushchev:

1. Called on the United States to follow the example set by Moscow March 31 when Foreign Minister Andrei Gromyko announced the Russians were suspending tests; and

2. Emphasized the point, made by Gromyko, that if the West does not take that course the Russians will consider it necessary in the interest of security to resume their own tests.

Eisenhower made it clear that planned U.S. nuclear trials will go ahead in the Pacific this spring and summer, and questioned whether it was even Khrushchev's real aim to get testing stopped.

The timing, wording and manner of the Soviet declaration cannot but raise questions as to its real significance," Eisenhower said in his letter delivered in Moscow this morning

and released by the White House.

James C. Hagerty, presidential press secretary, said Eisenhower's reply had been cleared with the other partners in the Atlantic Alliance.

Eisenhower said Russia could prove its peaceful aims by one or all of these:

1. Accepting Eisenhower's atoms-for-peace plan to stop making atomic weapons, create international supervision to prevent cheating, and drain off existing atomic weapons for use of their fissionable materials in peaceful pursuits.

2. Agreeing as an alternative to Eisenhower's "open skies" aerial inspection and space-for-space proposals.

3. Agreeing to "begin the preliminaries necessary to larger things" in the disarmament field by starting immediately a joint study of technical measures for setting up international atomic controls.

Russ Tests End 'Peculiar'

Eisenhower told the Communist leader it seems' peculiar that Russia, having just concluded a series of tests of unprecedented intensity, "should now, in bold headlines, say that it will not test again, but add, in small type, that it may test again if the United States carries out its long-announced and now-imminent series of peaceful purposes."

"If the Soviet Union is as peace-loving as it professes, surely it would want to bring about an internationally supervised diversion of fissionable material from weapons purposes to peace purposes."

Also in Washington, State Secretary Dulles said he thinks the U.S. will need more nuclear tests after its Pacific explosions this spring and summer.

That is likely, Dulles said, in the quest for information needed for making smaller, cleaner nuclear bombs.

Dulles also told his press conference President Eisenhower's science advisers have revised upward U.S. estimates of the number of international inspection stations which would be needed to police a nuclear test ban inside Russia.

Dag Welcomes Soviet Move On Tests Ban

UNITED NATIONS, N.Y. (AP)—UN secretary-general Dag Hammarskjold said today he welcomes the announcement that the Soviet Union is suspending nuclear tests.

But he said he also favors a ban on production of nuclear weapons and an international inspection system as advocated by the Western powers.

U.S. Jet Tanker Hop Misses World Record

OMAHA (AP)—A U.S. Air Force KC-135 jet tanker landed at Lajes Field in the Azores at 7:25 a.m. PST today after a flight of 10,228 miles, a world distance record for jet aircraft.

The plane carried fuel for a 10,000-mile flight and the high altitude jet stream winds were expected to give it enough push to carry it on to Madrid. But the winds ranging from more than 100 miles an hour to less than 25—locked velocity sufficient to let the tanker make it all the way.

Streaking eastward from Tokyo after taking off at 12:38 p.m. PST Monday, the plane booked a record flight of 13 hours and 35 minutes for the 7,662-mile flight to Washington, first leg of the trip.

The jet stream velocity subsided north of Hawaii and never picked up sufficiently again.

Explained that the measurements are taken from the VOR (visual omnirange) markers at each point rather than from the actual take-off point.

Raw Material Exchange for Manufactured Goods Foreseen in Gordon Report

OTTAWA (CP) — The Gordon Economic Commission sees few prospects for putting world trade on a freer basis or finding wider foreign markets for Canadian manufactured products.

It expects the world wheat price, in relation to other commodity prices, to be depressed. And it foresees "little reason for expecting rising price trends for most raw materials."

But it finds "grounds for considerable optimism" about Canada's future chances of exchanging its raw materials for manufactured goods on world markets.

Its recommendation on tariff policy—similar to that in its preliminary report issued 15 months ago—is that Canada

should "hold the tariff line on the average at about its present level."

An impetus given by the United States toward freer trade policies in the world now is "virtually exhausted," it said.

It urged the straightening out of "anomalies" in Canada's tariff structure, and advised protection for established industries against imports at "dumped prices" below fair market value.

But it said Canada's goal should continue to be establishment of freer world trade. Canada would suffer as much as any country from a world-wide round of "beggar-your-neighbor" competitive tariff increases.

The commission's prediction on wheat prices is based on

what it describes as "the world-wide pressure" to protect agriculture industries in various countries and build up national food programs, especially in grains.

These programs "will operate to limit the quantity of cereals entering world trade over the next 25 years and will tend to depress the international price of wheat relative to that of other commodities."

It cautioned that Soviet trade policy "may often be deliberately disruptive and piratical" for strategic reasons.

"Canadian producers, for example, may have to face the dumping in third markets of such commodities produced within the Soviet bloc as lumber, asbestos, coarse grains and salmon."

The commission virtually ruled out Canada-U.S. "re-

covery" to eliminate trade restrictions between the two countries.

There was no reason to believe U.S. authorities would want it. And in Canada it "would entail an upheaval in the lives of a great many people" working in industries unable to survive American competition.

Tax Cut Best For Jobless Probe Rules

Gordon Report Analysis Says Program Of Public Works Would Take Too Long

OTTAWA (CP) — The federal government should reduce taxes and increase federal expenditures during times of serious unemployment, says the Gordon Royal Commission on Canada's economic prospects.

RUTHLESSNESS NEEDED TO PUT CITY IN ARCTIC

OTTAWA (CP) — It would take the "ruthlessness of a Peter the Great to plant any large centres of population" in the Canadian Arctic, says the Gordon royal commission on Canada's economic prospects.

The northern wilderness "will continue to dwarf whatever encroachments are made on it," although there will be important economic developments there in the future, the commission adds in its final report made public today.

Report Urges Gov't Agency On Energy

OTTAWA (CP) — Government action to open the Montreal market for western Canadian oil may come about if Canadian crude is prevented from reaching its natural American market, the Gordon economic commission says.

That possibility, outlined in the royal commission's final report, is one of several major topics not contained in the commission's preliminary report of January, 1957.

The report recommends the establishment of a national energy authority responsible for development, export, import and consumption of all forms of energy in Canada.

It calls for generous tax concessions to encourage investment by Canadians in this country's oil and gas industry, major efforts to find new markets for gas and oil and limited export to the U.S. of hydroelectric power.

The report says the Canadian oil industry is suffering from "claustrophobia" which can be solved only by new markets. Main reason for this situation was that U.S. interests which control or own most of the industry were reluctant to increase exports to the U.S. because this would disturb the high level of prices now insulating American producers.

More Processing Of Minerals Held 'Unreasonable'

OTTAWA (CP) — The Gordon royal commission on Canada's economic prospects has "cautioned against 'unreasonable' demands for increased processing in Canada of this country's mineral resources.

"If we should be unreasonable in our demands that further processing operations be undertaken in Canada, we might find our foreign customers would look elsewhere for their supplies," the commission said.

WALTER GORDON
... completes report

\$100 BILLION NEW HOUSING FORECAST

OTTAWA (CP) — About \$100,000,000,000 may be spent on new housing and kindred projects during the next 25 years in Canada, the Gordon economic commission forecast today in its final report.

Since much of this spending will consist of extending and revamping existing cities, the commission said, greater attention should be paid to overall community planning.

With the continuing growth of Canada's cities, the commission foresees a growing need for greater centralization of urban municipalities under one authority, such as the metropolitan government of greater Toronto.

"We do, however, believe it

Equality for Varied Forms Of Transportation Urged

OTTAWA (CP) — A unified transportation policy tending towards competitive equality among various carriers is recommended in the final report of the Gordon royal commission on Canada's economic prospects.

While the commission's proposals are directed primarily to railways, air transport and inland shipping — under federal control — it said they could apply with equal force to the provincially-controlled trucking industry.

A major recommendation is that steps be taken — initially through a federal subsidy — to lift the "burden" on the railways caused by the low Crowsnest Pass freight rates on export-bound grain which remain fixed under a 1925 parliamentary statute.

Eventually, the commission suggested, "greater flexibility" could be introduced into the now-rigid grain rates.

PAY FOR FACILITIES

For planes, inland shipping and trucks, it suggested they should be made to pay a higher proportion of the cost of facilities they use, such as airfields, weather and navigation facilities, canals and highways.

It also proposed that the railways should have more freedom to abandon unprofitable branch lines and other unremunerative services.

While saying that a "more unified approach" should be taken by the federal government towards agencies under its control, the commission said it does not believe this can be achieved by some "super transport body" even if there were no constitutional objections to it.

"We do, however, believe it

can be more nearly attained if the authorities concerned seek to ensure that each form of transport as nearly as possible pays its own way and is regulated in such a way as to prevent waste, duplication and uneconomic ratemaking."

If for national policy reasons the federal government feels it necessary to provide transportation at reduced rates to certain regions or producer interests, this should be done by "openly reimbursing the transportation enterprises involved."

The railways in particular should be allowed to earn a reasonable rate of return where their services are economically justifiable.

"We . . . have concluded, although with no little reluctance, that the burden imposed on the railways by the statutory rate on grain traffic could be lifted with the least distortion in the short run by a new charge on the public treasury.

However, the commission said, it was not entirely clear that the railways had taken all advantages possible under the present framework, such as negotiating the maximum numbers with individual shippers and joining with one another to effect common economies.

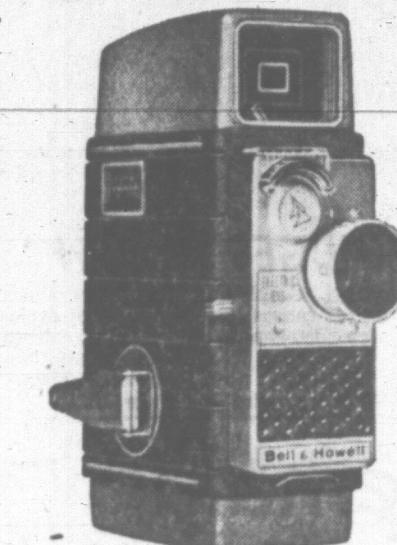

Masonic Rite Set

Funeral service under auspices of Mount Newton Lodge No. 89, AF & AM will be held Wednesday noon at Sands Mortuary for past master William Walter Levy, 43, of 4285 Quadra.

Mr. Levy died Monday at St. Joseph's Hospital after collapsing on Gorge Vale golf course.

Dr. Kenneth M. King will officiate at the funeral. Cremation will follow.

Sewer Service Charge Suggested To Increase Municipal Revenues

OTTAWA (CP) — A charge for sewer service is one method suggested by the royal commission on Canada's economic prospects by which municipalities might obtain more revenue.

The commission's final report also suggests a municipal vehicle tax or an assured proportion of provincial motor vehicle revenue as in Alberta. In the western province, municipalities receive each year 50 per cent of the Alberta government's revenue from gasoline tax in the previous year.

"What the citizen pays is no

commission proposes "that longer a tax, but an economic the municipal real property tax price for a particular service, be given rather less work to do." There seems no real reason why and that it be made payable in sewer service should not be monthly instalments instead of similarly charged for, with the in an annual lump sum. Thus amount of service provided being streamlined, it might prove a more flexible and efficient instrument in the hands of local governments.

The commission notes that many Canadian municipalities now charge for water on a cost-of-service basis, with individual bills determined by meters.

"What the citizen pays is no

"Last night I solved my major problem"

How one low-cost policy insures entire family...

- With a wife and two children, a man has plenty of responsibilities. In my case, the major problem was getting insurance coverage for all of us without the expense and complexities of individual policies.

"Then my Confederation Life man told me about their new Family Policy. All I pay is one low-cost premium and we're all covered. When we have more children, they're covered too—at no extra cost! Last night, I signed the application for my Confederation Life Family Policy and solved the major problem of protecting my family's future!"

EXAMPLE:

Coverage for man, age 30, wife and 2 children

- Monthly Premium: \$12.00.
- \$5,000 permanent insurance on your own life with premiums payable only to age 65.
- Substantial cash values guaranteed and generous dividends declared annually.

Progress Comes, Garden Goes

THE last time I passed that way, the southeast corner of the Empress Hotel grounds was a barrens of filled earth. Mechanical equipment was located there and a few shrubs and trees left an imperfect screen between the marks of the bulldozer and Belleville Street.

In time, I understand, the area will be levelled and black-topped into a spacious parking ground.

Progress, bless it, has come.

In place of nature's untidy thrust of green and bloom, the neat, even stretch of tarvia will cover a sterile acre.

It shouldn't be any concern of mine. This is the CPR's business. And the CPR's business in this instance is catering to the wants of hotel guests from whom the company expects and receives revenue.

But when the mineralized surface finally goes down, it will seal a tomb on some of the days of my youth.

FRIENDLY COURT

In a more leisurely time, the southeast corner of the hotel grounds was devoted to a clay tennis-court. It was shut off from the rest of the garden area by a heavy trellis over which roses were trained. A big shade tree grew at the northeast corner of the court and a grass boundary, with flower borders next to the trellis, added to the attractiveness of the setting.

A youth who was a friend of the management might use the court when it was not taken over by hotel guests, and the guests seldom invaded it.

That was an era in which you dressed in cream flannels, white shirt, and one of those long white sweaters with different colored neck bands when you were playing tennis.

It was still the day when people could lob their shots back and forth in pleasant exercise and were courteous enough to spare the beginner sizzling serves, overhead smashes and whistling drives. Tennis was a friendly game that went with blazers and straw boaters.

YOUR HEALTH

By DR. WALTER C. ALVAREZ

Diagnostic Aid

Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation

MANY people go blind because the retina of the seeing membrane in the back of the eye becomes detached from the globe of the eye. In the past it has sometimes been tacked down again by a special operation. Dr. Donald Shaffer, of the eye bank for sight restoration at the Manhattan Eye, Ear and Throat Hospital in New York, and Dr. Joseph A. C. Wadsworth and Graham Clark of the Institute of Ophthalmology of the Presbyterian Hospital in New York, have been working on a new and very promising method in which some of the vitreous humor (the substance that fills most of the eyeball) is injected into the eye of the person who is going blind. This pushes the retina back into place where it may become attached. In 48 per cent of 50 consecutive operations good restoration of vision was accomplished.

DEVICES FOR PARALYZED

A while ago I gave the name and address of a man who has invented a machine to turn over pages or to handle a typewriter, which can be used by one who is completely paralyzed from the neck down. Now, I read in the National Foundation News of the Foundation for Infantile Paralysis about Herbert Merrill, Scarborough, Me., an electrical engineer who is almost completely paralyzed by polio. He has devised a number of electrical switches for people who share his predicament. One of them he is selling under the name of "Switch-O-Matic." It has five electrical outlets and can be wired so that the slightest pressure will control a radio, a rocking-bed, a telephone, the lights in the room, or almost any combination of electrical devices the patient will select. Merrill is able

Alvarez

to control the switch with a faint movement of his left foot which has retained a slight amount of strength. The cost is about \$230. Mr. Merrill is working on other gadgets which can be used by paralyzed people.

A new laboratory technique which is expected to save thousands of lives by enabling laboratory workers to tell quickly—in an hour or so—what type of infectious disease a person has been reported. Then the doctor can decide right off what is likely to be a good antibiotic to use.

What the discoverer has been doing is to label or tag with a fluorescent dye, a large number of serum antibodies each for a different infection. If a drop of the tagged antibody solution is placed on a smear of suspected material containing some germ which can combine with the antibody, it will glow with a greenish light when the slide is placed under a microscope equipped with ultraviolet light. A number of such tests can be made rapidly, one after another, using different antibodies, and eventually the germ or virus that is causing the person's illness can be recognized. The important point is that the identification can be carried out within an hour, whereas, with other methods, it generally takes a few days or even a week to find out what the infectious agent is.

MUSCULAR CONTRACTION

It is probably good news for sufferers from muscular dystrophy that the great biologic chemist, Dr. Albert Szent-Gyorgyi has now reported that our old ideas of muscular contraction were wrong. Instead of there being one chemical which is essential to contraction, there are at least two, and one of them is of basic importance. Dr. Szent-Gyorgyi, a disease of this basic substance. Chemically, thinks that possibly muscular dystrophy is it may be a nucleoprotein. Today, a tremendous amount of research is being done on the extremely important nucleoproteins.

HOME GARDEN

By JACK BEASTALL

Trouble With Clay Can Now Be Beaten

Mrs. G. L. of Gordon Head, writes: "While plants do fine with a little nursing along, it is a waste of time to sow seed in our heavy clay."

"Artificial watering to supply the needed moisture for germination causes the clay to pack, crack and turn to concrete as it dries."

Mrs. G. L. is one of many local gardeners who are beset by this unfavorable condition, but there is a ray of hope for all clay dobers.

On the market today there are several soil conditioners which may be adapted to assist seed germination, beside the compost which every gardener should make from waste vegetation.

If we can create favorable conditions for the seedlings they will soon be strong enough to overcome the clay, and usually turn into better plants than are found in a sandy soil.

For seed sowing, a drill is made about two inches deep and this is filled with compost which has been passed through a screen (or riddle) with a mesh one-half inch square.

The seed is sown directly into this compost and lightly covered with the same material, possibly screened a little finer in the case of small-sized seeds.

Of the marketed preparations, the horticultural form of vermiculite called terralite, crushed volcanic rock such as earth-aid, the peat mixture known by the name of blue whale, and straight peat moss, may be used in the same way suggested for compost.

In the case of the straight peat moss, germination is sometimes inhibited by its acid reaction, but the addition of a little agricultural lime appears to help.

If we can create favorable conditions for the seedlings they will soon be strong enough to overcome the clay, and usually turn into better plants than are found in a sandy soil.

GEORGE JEAN NATHAN

Top Broadway Drama Critic Nathan Dies

NEW YORK (AP) — George Jean Nathan, sharp-tongued dean of Broadway drama critics for many years and associate of the late H. L. Mencken, died today at 76.

With him at the end was the wife he married when he was 73 and she was 45.

Nathan, who was an author and an editor of The American Mercury and other magazines, had been ailing in recent years. The cause of death was not announced.

He died at the Royalton Hotel, on the fringe of the Broadway theatrical district, in the room he had lived in for 34 years.

Nathan's reviews were widely credited with a profound effect in improving the American theatre. He was the author of two score books, most of them devoted to the theatre and wrote several plays.

Wheat Disposal Plan U.S. 'Aid to Canada'

NEW YORK (BUP)—Secretary of Agriculture Ezra Taft Benson denied today the United States' surplus wheat program is a threat to Canada. He also denied the program has lowered world wheat prices.

Benson answered a brief questionnaire on the subject submitted by British United Press. He said that, far from injuring Canada, the wheat disposal program will help Canada in the long run by removing a substantial part of the American surplus, by increasing the demand for wheat products throughout the world and by fostering a general economic development and developing markets for farm products in many lands.

VICTORIA, B.C., TUESDAY, APRIL 8, 1958 13

NEW \$70,000 FIREPROOF WING of Art Gallery, Moss Street, is now half finished. Work started in December and is expected to be complete in mid-summer. One-storey fireproof addition means major

HERE
AND THERE . . .
With NORMAN CRIBBENS

Victorians visiting London next month will probably journey a few miles out to leafy Petersham churchyard for the perennial ceremony at the graveside of Captain George Vancouver.

Having done this in rain, wind and shine for nine years running, I cannot share the thrill of novelty Mr. and Mrs. Roy Cannone expect when they go there May 18 to commemorate the 201st anniversary of our founder's birth.

W. A. (Bill) McAdam, our general agent-general in the United Kingdom, makes sure that few British Columbians visit London in May without attending the ceremony. And from British Columbi-

ans residing in London he takes no excuses.

"Where can we pick you up?" is Mr. Mac's usual approach.

Most of London's mayors, including the lord mayor, are persuaded to attend.

Victoria visitors to this year's ceremony will probably include Miss Gertrude Moore, Miss Clara M. Brown and Prof. Charles Burchill, a lecturer at the Tri-Services College, Royal Roads—all leaving for London within the next few weeks.

There, too, will be Brigadier William Colquhoun of Langford, a distinguished soldier of the First World War, who is already in London.

Riley H. Allen, editor of The Honolulu Star-Bulletin, has apologized publicly in his paper for a news item referring to the naval docks at "Esquimalt, Vancouver."

He did so, of course, after receiving an admonishing letter from publicity commissioner George Warren.

★ ★ ★

One of many Americans who were surprised by the landslide Conservative victory March 31 is Prof. Burke Sheeran of Benicia, Calif.—a special visitor to Victoria.

I understand the increasing control of American big business over large areas of Canadian economic life was a

big issue in the election," he writes.

"Mr. Diefenbaker seems a most impressive figure and he is certainly a rugged campaigner."

Prof. Sheeran, a student of Canadian history, is senior management analyst at Benicia arsenal.

★ ★ ★

I hear that two seasoned Canadian National employees are soon to retire.

They are R. A. (Art) Bell, transportation assistant at Point Ellice, and R. S. Collinson, district freight agent in Victoria.

Both have completed more than 40 years' service with the company.

TOPICS OF THE DAY

The opening game of the Stanley Cup finals between Montreal Canadiens and Boston Bruins of the National Hockey League will be broadcast tonight at 5:30, PST, by CRU radio.

There will be no TV coverage.

★ ★ ★

The Legislative Buildings will not be floodlit during centennial year.

Works Minister W. N. Chant, mulling over a floodlighting demonstration at the Buildings last year, said Monday he has decided present lighting and decorations are sufficient.

He added some of the decorations will be changed to meet objections to gaudiness.

★ ★ ★

Victoria psychiatrist Dr. Leyda Lythgoe will address a workshop of the boarding and nursing homes tonight at 8 in Spencer House, 1951 Cook.

Subject of her address, which will be sponsored by the Silver Threads Service, will be the emotional and mental problems of the aged. The meeting will be open to the public.

★ ★ ★

More than 250 tourists called at Victoria and Island Publicity Bureau Easter Saturday.

During March the bureau received 2,774 callers compared with 2,105 in March last year.

★ ★ ★

The Victoria Natural History Society will meet at the Provincial Museum tonight, at 8 o'clock, when the film "Autumn Tour" will be presented by Mr. and Mrs. H. A. Dreany, Cobble Hill.

★ ★ ★

ASK The TIMES

Q. Could you please tell me how to get to the new zoo that has recently been built in the Highland district, and when it is open?—J.F.

A. Take the West Saanich Road from the city to Wallace Drive; go along Wallace to Durrance Road, then follow the signs to the zoo. It is open from dawn to dark. Entry charges are 50 cents for adults, 35 cents for students and 25 cents for children.

Q. Do you know if an 1882 American silver dollar is worth any more than \$1?—W.C.

A. In new condition it has a collectors' value of \$1.40.

Here's interesting news for the bride-to-be:

The National Industrial Design Council of Ottawa has a series of large panel illustrations on show at the Art Gallery, illustrating how to furnish a home in the most up-to-date manner.

The show started today and will continue the remainder of the week.

Three auto radiator cores with a total value of \$89 were taken from Pacific Auto Radiators Ltd., 2021 Douglas, between Thursday night and Sunday afternoon, owner Paul Bartol told city police Monday.

Entry was by way of a window.

★ ★ ★

The Victoria Boy Scouts are short 60 billets for Scouts who will be here to receive their Queen's Scout certificates from Lieutenant-Governor Frank Ross, Thursday afternoon.

Billets are required for Wednesday and Thursday nights, with supper for Wednesday and breakfast for Thursday and Friday.

Anyone wishing to help should contact Scout Headquarters, 1034 Johnson Street, phone 2-3915.

★ ★ ★

Theft of a \$100 custom car radio from a car owned by D. R. Martin, 1214 Yates, was reported to city police at 7:35 a.m. today.

Mr. Martin said a window was forced open and the car entered, probably overnight.

★ ★ ★

Building permit was issued in Esquimalt today for construction of a \$135,000 provincial government liquor store at Esquimalt and Admirals Roads.

Work began this morning, building inspector Bill Edgington said. Contractors are Luney Bros. and Hamilton Ltd.

Present site of the liquor store in the municipality is in the Maynard Block at Grenville and Esquimalt Road.

A bicycle and a small boat were victims of fire which destroyed a shed at the home of Robert Chase, 714 Claremont, at 2:50 p.m. Monday.

The boat and bike were stored in the shed, totally destroyed in the blaze, which caused an estimated \$200 total damage.

But another disturbance is approaching," Mr. Mackie said.

★ ★ ★

The news hit her hard. But in time she learned she was one of the lucky cancer victims. The cervix, doctors say, is one of the most accessible areas of the body. Symptoms of cancer there can be diagnosed early.

LIFE SAVED

That fact probably saved her life.

But still it meant the discomfort of three two-day stays in Royal Jubilee Hospital,

MLA Asks Law Change On Labor Conciliation

Multiple Theft Charges Draw Guilty Pleas

Trio Remanded
For Sentence

Three men charged with a variety of thefts, burglaries or possession of stolen property, entered pleas of guilty in city, Saanich and Esquimalt police courts today.

All were remanded.

Raymond Charles Hunt, 652 Garbally, faced four charges in city court, one in Saanich and one in Esquimalt. Gordon Boyle, Glen Court Hotel, and Howard Abercrombie, 1203 Blandish, each appeared in city court.

Hunt is charged with breaking, entering and theft at T. Eaton Co. Ltd., breaking, entering and intent to steal at Eaton's; breaking, entering and theft at the Style Shop, 303 Cook, and breaking, entering and intent to steal at P. R. Brown and Sons Ltd., 1112 Broad.

The meet is scheduled for April 22.

The three ships are due at Pearl Harbor, April 24, will leave April 26, and make port at Esquimalt, May 5.

★ ★ ★

Workers Want
HBC Closed
On Mondays

Court was told when Hunt was arrested in Eaton's over Good Friday holiday he had on his person a quantity of clothing and sports goods.

He had two suitcases containing packaged meats and clothing.

Court was told he had earlier taken clothing from the Style Shop.

Hunt also pleaded guilty to entering Bewley's Drug Store, 1301 Esquimalt, and taking a quantity of merchandise, and remanded to next Monday in Esquimalt court, and to entering Gorge Super-Valu, 272 Gorge, and taking merchandise, and remanded to next Tuesday in Saanich court.

The action stemmed from a council decision last week to conduct a poll of all city merchants. They will be asked whether they favor five, five-and-a-half, six-day shopping, or wide-open hours.

Spokesmen for some merchants have criticized council for not taking their desires, nor the desires of the shopping public, into consideration.

A spokesman for the Hudson's Bay Group, Local 279, Retail Clerks' International Association, pointed out the store now observes a "five-day" week—but many employees are required to take their day off as half-days. The days off are staggered and do not permit workers to enjoy time off together.

Council poll will be conducted Wednesday through publication of a questionnaire in local newspapers. It is returnable to city hall before April 15.

Firemen's Ball

A three-dimensional, old-time fire wagon and horses, suspended from the ceiling of the Crystal Ballroom in the Empress Hotel, behind the orchestra dias, will set a motif for the annual Firemen's Ball to be held on Friday, April 18.

Patrons for the event include His Honor the Lieutenant-Governor and Mrs. Ross; Premier W. A. C. Bennett and Mrs. Bennett; Mayor Percy B. Scurrish and Mrs. Scurrish, and the fire wardens and their wives.

Charlie Hunt's orchestra will play for dancing. Dress will be formal, and a supper will be served from 11 p.m. to 12:30 a.m.

Committee in charge of arrangements includes J. D. Stewart, secretary-manager; R. J. Coates, president, Firemen's Mutual Benefit Society; P. Graves, vice-president; C. Robins, master of ceremonies; W. Jones, assistant MC; G. Hansen, decorations, and G. Kulai, committee member.

A special reception for honor guests will be held before the ball in the Princess Louise Room at the hotel, with Fire Chief J. E. Bayliss and Mrs. Bayliss acting as hosts.

It's a perfect lipline you'll have m'lady if you'll try this automatic lip brush. To use, you simply remove cover and the brush pops up.

Lips too thin? Then fill them out with this brush. It's easy.

Maybe you're troubled by wide lips that give you too big a mouth! Slim them down with the brush. It's only \$1.75. It may have been the zipper, I don't know, but I've fallen for a plastic travel kit full of cosmetics. The new zipper on this \$6 kit is toothless. It doesn't catch or slip. Inside the soft plastic case are creams, powders and lotions packed in unbreakable containers. What a buy and what a gift for that special friend who's off on a trip!

For the very gay person, I've found a new nail polish and it's gold! Called Cellini-gold (Italian) this truly gorgeous mixture is just the thing for those extra special evenings. It will look heavenly with just about any shade... especially black! Be different and a little 2-3-1-3.

CLUB WOMEN'S NEWS

Symbols—At a meeting of the Women's Auxiliary to the Metropolitan United Church, Rev. Laura Butler gave a talk on the tradition of the Easter symbols. Mrs. G. A. R. Steck presided and devotions were taken by Mrs. Frank Mack. Afternoon tea was served by the Loyal Group.

Annual Tea—Mrs. John F. Page, wife of the rector, officially opened the annual daffodil tea and bazaar of the Afternoon Guild of St. Matthew's Church, Langford. A sum of \$140 was realized. Guild president, Mrs. L. Horner, received the guests. Tea was served by Mrs. A. Ashdown, Mrs. W. T. Sims, and Mrs. H. Smith. Acting as servers were Mrs. C. Connerton, Miss Molly Powers, Mrs. N. Wolski and Mrs. Reg Guyton. Tea tickets were in charge of Miss L. M. A. Savory and Mrs. A. F. Baylis. Needlework stall was run

PRINTED PATTERN

by Anne Adams Half-Size Step-In

Half-Sizers! If you're looking for a daytime dress that can go to dinner too — this is it! A step-in, styled along slimming lines, it's a Printed Pattern proportioned to fit and flatter.

Printed Pattern 4723: Half sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16 requires 4 yards 30-inch fabric.

Printed directions on each pattern part. Easier, accurate. Send fifty cents (50c) in coins (stamps cannot be accepted) for this pattern. Please print plainly size, name, address, style number.

Send order to Anne Adams, care of The Times, Pattern Dept., 60 Front St. W., Toronto 1-A, Ont.

As soon as you take up
with make-up you need ...

Salon Cold Cream

gives you
the
clean skin
you need
today,
to have
beautiful
skin
tomorrow.

For loveliness through the years!

1. **CLEANSE**—Apply Salon Cold Cream every night... and when you change make-up.
2. **STIMULATE**—After removing Salon Cold Cream, pat skin briskly with cool Orång Flower Skin Lotion to stimulate, brighten, colour, and tone your skin.
3. **LUBRICATE**—At night, cream on Special Dry Skin Mixture to nourish and keep your skin truly young-looking.

Exciting! The magic of make-up. But wearing make-up means special cleansing care to keep skin youthful in days to come—the special care of Dorothy Gray Salon Cold Cream.

Every skin needs the daily deep-down cleansing of Salon Cold Cream to remove every speck of dirt, stale make-up and other impurities that can cause your skin trouble. Salon Cold Cream is proved 2½ times more effective than complexion soaps and other creams.

For beauty the modern way

WHY GROW OLD?

By JOSEPHINE LOWMAN

Have you ever sat in a public place and actually observed people as they pass by? If you haven't, you should try it, for it will be a dramatic education in what characteristics add up to an attractive appearance and what detract from it. It is truly an amazing experience.

Along comes a woman who waddles from side to side, throwing her weight from side to side rather than forward with each step. She is immediately noticeable in an unattractive way no matter how she looks otherwise.

Next you may see one who has what I call a "twitchy walk." This hits your eye with such force that you hardly look to see whether she is pretty or not. The twitchy type springs slightly from the knees with each step, throwing the hips (back view) from side to side with every stride.

Then there is always the mincing step of the woman who is wearing spikes, as she tries to balance her body weight on these two tiny supports. Then, of course, there is the shuffling walk. The woman in question does not really pick her feet up and lay them down.

The way you walk has such a great impact on the general impression you make to others. The shape of your lips or nose or the way your hair is fixed might go unnoticed. The two factors which give an immediate impression, and such a strong one, are a woman's walk and her posture.

Let's forget the walk for a while and look at the posture of those you see. Any woman you just naturally look at twice is no doubt carrying herself very well, with her head beautifully poised, her spine straight, her abdomen pulled in and her

chest high. I think we should all check ourselves in these two matters because good carriage and a graceful walk are two aids we can carry into older years unless we become the victim of some illness or accident which makes this impossible. However, most women who do not have good posture or a graceful walk have just fallen into these habits without realizing it, and most of them could correct the situation.

It's a strange thing! You practically never see a woman who has lovely posture who does not have an attractive walk, and vice versa.

Too often we allow poor posture and an awkward walk to slip up on us, without realizing what is happening. So, let us check these two assets which we can take down the years with us!

It's a "lonesome road"
when you go by car...

LOUISE DAVIS

On Etiquette

Neglecting grandparents:
Our daughter married and is living out of the province. Her grandparents, who are in their 80s, live here. They have always been very generous to her by giving her cheques and bonds for every birthday, Christmas and Easter. My daughter is good about acknowledging the gifts and also

Louise Davis

attention. Love and respect cannot be measured in terms of presents. The nicest gift of all would be continued loving letters at frequent intervals. But with a few cents and a little thought, an inexpensive gift now and then would give the grandparents untold joy, even if it is only a handkerchief or a dime store trinket.

Luncheon Party

The women's committee to the Art Gallery is arranging a luncheon for gallery members and friends on Monday, April 14 at 1 p.m. in the gallery. There will be an informal talk later by the curator, Colin Graham.

Reservations are limited to 100

and can be arranged by telephoning Mrs. D. Leechman, 2-9557.

Louise Davis answers:

I don't think it is too late to rectify the oversight and the sooner it is done, the better.

Your daughter owes her grandparents something while she still has them, not because they sent her cheques and bonds but because they are her grandparents. She doesn't necessarily have to shop for them, for grandparents, who are blessed with the wisdom and experience of the years, are aware that young married people often exist on a shoestring. The tangible wants of people in their 80s become less and less, but they still crave love and

affection.

"It's a form of preventive medicine," said Mrs. Dorothy Barrier, executive director of the centre.

"We're not trying to take the romance out of courtship. But rather give young couples an insight into the marriage partnership before the wedding day."

AMAZING AEROWAX

Spill on it! Scuff it!

Just "damp mop" and the shine's still there!

Aerowax saves rewaxing, too. Easy buffing brings back the shine.

FINAL GORDON REPORT

U.S. to Remain Best Customer

(From Times News Services)

OTTAWA—Blunt facts about Canada's trading relations with the United States are contained in the final report of the Gordon Royal Commission on the nation's economic future.

Released by the government today the 300,000 word document finds that Canada's expansion in the next quarter century will be more than ever tied with the republic to the south, because that is where its greatest market lies.

But there are hazards and pitfalls to be avoided.

The report is a document warning of dangers of unemployment, inflation, shrinking overseas markets and foreign control, but building hopes of rising incomes and population and a possible tripling of national production.

The commission kept to its original 25-year forecasts made in the preliminary report of January, 1957—of a population slowed almost to a halt and Canada should not look for any big new free-trade moves.

Little Hope Elsewhere if U.S. Fails

"If the U.S. finds it almost impossible to further liberalize its commercial policy, we doubt whether much progress can be expected from other countries."

Yet it was in the U.S.—and not in Britain—that Canada's main hopes lay for expanding her exports, the commission said. Because of American deficiencies and shortages, it predicted a growing market there for Canadian industrial raw materials, adding impetus for expansion of Canadian mines and exploration for new minerals and metals.

But it warned also of growing American control over Canadian industry and proposed ways of lessening this growth.

80 Per Cent Will Live in Cities

"In 1951, 62 per cent of the population lived in metropolitan areas or in other cities, towns or villages with more than 1,000 people. By 1980, that proportion may rise to 80 per cent."

Over the same period the proportion of the population living in metropolitan and urban areas of more than 100,000 may rise from 36 per cent to 56 per cent. Not only will population grow faster in urban than in rural areas, it will also be increasingly concentrated in the larger metropolitan centres.

"By 1980 both Montreal and Toronto may have grown to cities of between 2,500,000 and 3,000,000 and Vancouver may be a city of almost 1,500,000."

"The process of urbanization will call for heavy expenditures on housing, streets and highways, schools, hospitals and other facilities of that kind. Expenditures in the various forms of social capital may well total \$100,000,000,000 or more over the period, without making allowance for price changes."

Canada's increased wealth would be reflected in higher average disposable incomes, rising by some 70 per cent during the 25 years. More of the country's economic expansion would be financed by Canadian savings but the main outside capital would still come from the U.S., adding to American control over Canadian industry.

Some of the fruits of increased Canadian productivity would be taken in forms other than money.

"Average weekly hours of work will decline and there will be more leisure. Retirement will ordinarily come earlier than it does today; and at the other end of the age scale, a higher proportion of young planned to harm her mother."

GORDON REPORT FULL DETAILS ON PAGE 2

to 27,000,000; of national production of goods and services tripling to \$75,000,000,000; of Canadians swarming to cities so that only about 20 per cent of the population would be left in rural areas.

And it added to the sweep of its studies, encompassing prospects for world trade and the use of fiscal machinery to avoid economic bumps and recommending that Canada hold her tariff line. Efforts of the U.S. to reduce tariffs had slowed almost to a halt and Canada should not look for any big new free-trade moves.

Raw Material Exchange for Manufactured Goods Foreseen in Gordon Report

OTTAWA (CP) — The Gordon Economic Commission sees few prospects for putting world trade on a free basis or finding wider foreign markets for Canadian manufactured products.

It expects the world wheat price, in relation to other commodity prices, to be depressed. And it foresees "little reason for expecting rising price trends for most raw materials."

But it finds "grounds for considerable optimism" about Canada's future chances of exchanging its raw materials for manufactured goods on world markets.

Its recommendation on tariff policy—similar to that in its preliminary report issued 15 months ago—is that Canada

should "hold the tariff line on the average at about its present level."

An impetus given by the United States toward free trade policies in the world now is "virtually exhausted," it said.

It urged the straightening out of "anomalies" in Canada's tariff structure, and advised protection for established industries against imports at "dumped prices" below fair market value.

But it said Canada's goal should continue to be establishment of free world trade. Canada would suffer as much as any country from a world-wide round of "beggar-your-neighbor" competitive tariff increases.

The commission's prediction on wheat prices is based on

what it describes as "the world-wide pressure" to protect agriculture industries in various countries and build up national food programs, especially in grains.

These programs "will operate to limit the quantity of cereals entering world trade over the next 25 years and will tend to depress the international price of wheat relative to that of other commodities."

It cautioned that Soviet trade policy "may often be deliberately disruptive and piratical" for strategic reasons.

"Canadian producers, for example, may have to face the dumping in third markets of such commodities produced within the Soviet bloc as lumber, asbestos, coarse grains and salmon."

The commission virtually ruled out Canada-U.S. "reciprocity" to eliminate trade restrictions between the two countries.

There was no reason to believe U.S. authorities would want it. And in Canada it "would entail an upheaval in the lives of a great many people" working in industries unable to survive American competition.

Tax Cut Best For Jobless Probe Rules

Gordon Report Analysis Says Program Of Public Works Would Take Too Long

OTTAWA (CP) — The federal government should reduce taxes and increase federal expenditures during times of serious unemployment, says the Gordon Royal Commission on Canada's economic prospects.

The commission, in its final report issued today, says that fighting inflation and providing a high volume of jobs must be the principal preoccupation of the federal government, not the provincial administrations.

In times of economic expansion and inflation, governments should budget for surpluses. In periods of recession, governments should be prepared to reduce taxes and budget for deficits.

This form of so-called cyclical budgeting was advocated by Liberal leader Lester B. Pearson in the election campaign. Prime Minister Diefenbaker proposed a \$1,185,000,000 public works program as a means of easing unemployment.

TAKES LONG TIME

The commission, headed by Toronto accountant Walter Gordon, said the trouble with public works is that they take a long time to launch. Months and even years of planning and coordination were required.

More work had to be done in the study of the business cycle and ways in which it could be evened out. A body of experts should be set up—along the lines of President Eisenhower's council of economic advisers—to inform the government of changes in economic policy that might be helpful "to ensure a high level of employment without inflation."

COULD CAUSE INFLATION

Inflation could be caused by demands of workers for pay boosts, the commission said. "One thing is certain. We shall not find the answer to the problem of inflation by blaming one or other of the many groups and classes that together comprise what we refer to as the free market economy."

The commission foresees a growing need for greater centralization of urban municipalities under one authority, such as the metropolitan government of greater Toronto.

WALTER GORDON
... completes report

\$100 BILLION NEW HOUSING FORECAST

OTTAWA (CP) — About \$100,000,000,000 may be spent on new housing and kindred projects during the next 25 years in Canada, the Gordon economic commission forecast today in its final report.

Since much of this spending will consist of extending and revamping existing cities, the commission said, greater attention should be paid to overall community planning.

With the continuing growth of Canada's cities, the commission foresees a growing need for greater centralization of urban municipalities under one authority, such as the metropolitan government of greater Toronto.

"We do, however, believe it

is also proposed that the railways should have more freedom to abandon unprofitable branch lines and other unremunerative services.

While saying that a "more unified approach" should be taken by the federal government towards agencies under its control, the commission said it does not believe this can be achieved by some "super transport body" even if there were no constitutional objections to it.

"What the citizen pays is no

Masonic Rite Set

Funeral service under auspices of Mount Newton Lodge No. 89 AF & AM will be held Wednesday noon at Sands Mortuary for past master William Walter Levy, 43, of 4285 Quadra.

Mr. Levy died Monday at St. Joseph's Hospital after collapsing on Gorge Vale golf course.

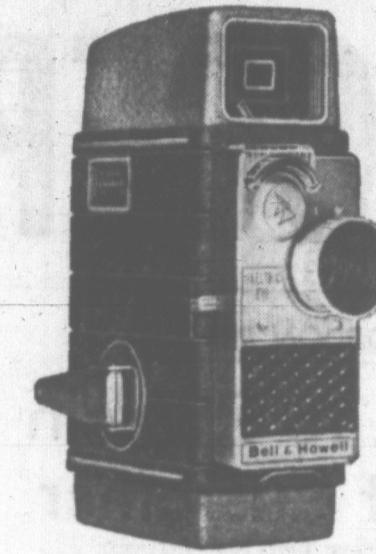

Dr. Kenneth M. King will officiate at the funeral. Cremation will follow.

More Processing Of Minerals Held 'Unreasonable'

OTTAWA (CP) — The Gordon royal commission on Canada's economic prospects has cautioned against "unreasonable" demands for increased processing in Canada of this country's mineral resources.

"If we should be unreasonable in our demands that further processing operations be undertaken in Canada, we might find our foreign customers would look elsewhere for their supplies," the commission said.

Feel Extra Fine!

How one low-cost policy insures entire family...

"With a wife and two children, a man has plenty of responsibilities. In my case, the major problem was getting insurance coverage for all of us without the expense and complexities of individual policies."

"Then my Confederation Life man told me about their new Family Policy. All I pay is one low-cost premium and we're all covered. When we have more children, they're covered too—at no extra cost! Last night, I signed the application for my Confederation Life Family Policy and solved the major problem of protecting my family's future!"

EXAMPLE:

Coverage for man, age 30, wife and 2 children
• Monthly Premium: \$12.00.
• \$5,000 permanent insurance on your own life with premiums payable only to age 65.
• Substantial cash values guaranteed and generous dividends declared annually.

Sunny California

SAN FRANCISCO (UP) — Sunshine returned to California today, ending the longest spell of wet spring weather in 109 years. But 850 families, driven from their homes by floods, were still in shelters waiting for the waters to recede enough so they could return.

FINES, PRIZES PLANNED FOR SIDNEY BEARD DAY

SIDNEY — Awards for the biggest, blackest, reddest, wildest and most stylized beards will be made during Sidney Day celebrations over the July 1 holiday. Sponsoring prizes for the facial flora will be the Sidney and North Saanich Community Hall Association. Consideration is being given to fining men without beards \$1, and the same fine for anyone growing a beard without a permit. Those penalized would be given tickets to the July 1 Mardi Gras ball.

The suggestion has also been made that women of Sidney wear old-fashioned dresses this summer to keep traditional pace with the men.

Shipowners Hail Ripple Rock Blast

SEATTLE (AP) — The United States Navy joined with Seattle steamboaters, tugboats and fishermen Monday in expressions of delight over Saturday's décapitation of Ripple Rock in Seymour Narrows on the B.C. coast.

A spokesman for the 13th naval district said: "We are happy to see that our sisters to the north were successful in removing this most serious navigational hazard in the inside passage to Alaska. We are grateful to them."

Praise also came from the Alaska Steamship Company, Alaska Freight Lines and Foss Tug and Barge Company, which have already sent several vessels through the narrows since the Canadian government touched off the 2,750,000 pounds of explosives that blew the top off Old Rip."

The general feeling of skippers who knew the narrows when "Old Rip" was ruler and who have gone through since the 2,500-foot narrows were cleared to at least a 47-foot depth was expressed in a radio Monday from Capt. Robert Nordstrom.

LOTS OF ROOM — Nordstrom is skipper of the Alaska steam freighter Galena. After he came through the narrows Monday morning on his way to Seattle from Ketchikan he radioed: "She's beautiful... nice wide... lots of room."

Alaska Steamship operates 180 trips a year one way or the other through Seymour Narrows. Capt. Henry Sternner, assistant operating manager for the firm, said: "With the rock there, we could stem the tide on a 7.5-knot current. Now we can go through with a fair tide, ebbing or flooding, without any trouble."

Husbands! Wives! — Get Pep, Vim; Feel Younger

Thousands of couples are weak, worn-out, exhausted because body lacks iron. For young people feeling after 40, try Oster's Tonie Tablets. Contains 100 mg. of iron, plus vitamins and minerals. Vitacel B-6 in a single tablet. Oster supplies as much iron as 16 dos. rawysters, 4 lbs. of liver, 16 lbs. of meat. Get maximum strength in 604 Oster Economy size and save 75¢. All druggists.

YOUNG VICTORIA RIDER — Barbara Johnstone, 16, of 1727 Feltham, captured top honors Saturday in open jumping at the Cowichan District Riding Club horse show in Duncan with thoroughbred mare Patsy Somers. She won over six other entrants. Hunter trials and races were held Monday and Barbara won two second places.

Air Cadet Squad, To Meet Friday

SIDNEY — First meeting of the new air-cadet squadron will be held here Friday when parents and high school boys will hear objectives of cadet operation.

Cancer of the skin is the commonest form of cancer in men. If treated early it can nearly always be cured.

SIDNEY — First meeting of the new air-cadet squadron will be held here Friday when parents and high school boys will hear objectives of cadet operation.

Speakers will be George Brebner, Victoria member of the Provincial Air Cadet League; the new squadron will be sponsored by the Sidney Kinsmen Club.

H-Bomb Resolution Handed to Embassies

LONDON (AP) — A resolution Downing Street were seen by passed by the marchers to Alderman urging discontinuance of the manufacture, testing and storing of atomic weapons was presented today to 10 Downing Street to the American and Russian Embassies.

The resolution was signed by nearly 3,000 persons who had taken part in the 50-mile protest march to the home of Britain's atomic weapons research establishment.

Malik talked to the deputation for nearly an hour. It was headed by Fenner Brockway, Labor member of parliament, who said he welcomed Russia's announced decision to suspend nuclear tests.

Malik replied that Russia supported the outlawing of atomic weapons and would ban them if other world powers did the same.

"I solemnly declare that your demands and our position coincide," he said. "I am optimistic that there will be a solution to these problems."

SINGING AT SUPPER . . .

Singing the praises of steak, thick, juicy prime corn-fed steak, served with hot garlic bread. Or, treat yourself to a dinner centered around the famous baked spare ribs, or pan-fried chicken. Tie on a spare-rib belt and dance the night away. In case, candlelight dining — you'll have The Spare Rib House happy and satisfied.

Funeral Notice

The members of Mount Newton Lodge, A.F. & A.M., No. 49, B.C.R., held a regular meeting for an emergency communication to be held in the Masonic Temple, Saanichton, on Wednesday, April 9, 1958, at 8 p.m. for the purpose of attending the funeral of our late Brother William Walter Leach, M.M. Members of local lodges and visiting brethren are invited to attend.

By order of the Worshipful Master.

CLAUDE E. JEFFERY, Secretary.
